STEEL FOR
STRENGTH

Since the conception of crude steel in the dark ages and during its steady growth through the years, progress in purity as well as in strength was and is of paramount importance.

To-day's modern methods of intensive selection produce perfect steel, strong and pure, to meet the most exigeant demands of India's growing industries.

NOTICE.

Tenders will shortly be issued for the Carting of 800 to 1,500 logs approximately from the Nepalese Tarai Forests.

Carting will be from the points where the logs are felled to the Ordnance Timber Depots situated at various stations on the borders of Nepal.

The Contract will be for 2 years, commencing 1-7-1943.

A minimum Security Deposit of Rs. 1,200 or such amount as may be required according to the regulations governing this contract, will be required from the successful tenderer.

Application for Tender Forms, accompanied by a fee of Rs. 10 which will not be returned, should be forwarded to the undersigned by 31st May 1943.

Applicants must state their experience of and resources for this type of work.

They may, if desired, visit the present Timber Depot personally and see the conditions under which the Carting is carried out. Such visits cannot be made after 26th April 1943, and must be notified a week in advance to the Officer-in-charge, Ordnance Timber Depot, Camp Gauriphanta, P. O. Dudwaghat, Distt. Lakhimpur-kheri, U.P. No travelling or other allowances are admissible for such visits.

INDUSTRIAL X-RAY TECHNIQUE

A notable contribution to

Unceasing research in the laboratories of Ilford Limited has resulted in many valuable contributions to radiographic technique, and in view of the increasing application of radiography to industrial work, the importance of the latest introduction, Kryptoscreen X-ray paper, cannot be too highly stressed.

Kryptoscreen X-ray paper possesses three qualities, high speed, perfect definition and excellent gradation which have never before been combined in any sensitised material intended for radiography.

This has only now become possible of attainment by the discovery in the Ilford Laboratories, after many years research, of an extremely fine grained fluorescent substance. This is coated beneath the silver halide emulsion layer and without impairing definition achieves the double purpose of shortening exposures and greatly improving the gradation of radiographs made on the paper. Thus these three important qualities, which have been sought by every industrial user of X-rays, are now available in

which is coated with the same new fluorescent material has been specially produced for use in contact with Kryptoscreen paper. Brytex Leaves allow a reduction in exposure to one-third of that required by Kryptoscreen X-ray paper alone, while preserving to the greatest possible extent its perfect definition. MACHINERY, SPARES FOR MACHINERY AND MILLS STORES FOR THE JUTE TEXTILE INDUSTRY—

The following Notice has been issued by the Government of India in the Department of Supply :—

In order to conserve existing stocks, ensure the maximum production in India, and obtain the necessary supplies from overseas that cannot be manufactured in India, it has been decided to set up a Priority Assistance Advisory Panel for Machinery and Stores (Jute), to advise Government regarding the issuing of Import Licences for machinery and stores required by the Jute industry. Therefore :—

1. In the case of Jute machinery, parts for machinery, and Jute mill stores, manufactured in India, the manufacturers in India concerned should, in the first instance, address the Controller of Supplies (Bengal Circle), 2, Fairlie Place, *Calcutta*, with regard to any assistance that they may require to obtain their requirements of raw materials for the manufacture of these articles.

2. Jute Mills wishing to import machinery or parts for machinery should, in the first instance, apply for the necessary priority assistance to the Controller of Supplies (Bengal Circle), on the forms provided for this purpose. Only applications from mills will be considered. Forms can be obtained from the Controller of Supplies, Bengal Circle.

3. In the case of Jute mill stores :—

(*a*) The following have been classified as essential Jute mill stores :—

- Bobbin and Bobbin Ends.
- Planetree Rollers.
- Shuttles and Shuttle parts.
- Gills.
- Gill Pins.
- Wood Lagging.
- Swells.
- Lay Races.
- Lays.
- Lay Box Backs.
- Spool Centres.
- Jute Cutting Knives.
- Sewing Machine Needles.
- Martingale Strapping.
- Camb Straps.
- Picking Straps and Teggers.
- Pickers.
- Cotton Listing.
- Cotton Twine for Listing Sewing.
- Cork Covers.
- Sliver Cans.
- Plaiding Cloth.
- Perforated Tin Strips.
- Card Pins.
- Staves.
- Needles.

(*b*) With effect from the 20th April 1943, Jute Mills and "Importing firms" wishing to import any of the above essential or other Jute mill stores should, in the first instance, apply to the Controller of Supplies (Bengal Circle). Jute mills and firms who desire to be registered as "recognised importers" should, in the first instance, apply by the 20th April 1943, on the prescribed form, to the Controller of Supplies (Bengal Circle). Forms for this purpose can be obtained from the Controller of Supplies (Bengal Circle). Recognition will only be accorded to Jute mills and firms who imported from the United Kingdom the essential stores concerned during the years 1st April, 1938/31st March, 1940 (it being essential for them to have imported substantially during the year 1st April, 1938/31st March, 1939). The form is J. I. C. I. Import licences which will be issued by the Deputy Chief Controller of Imports, *Calcutta*, will generally be granted only to those registered as "recognised importers" but individual licences may be granted to other importers in respect of orders already placed in the United Kingdom.

(*c*) Priority assistance for those who have been registered as "recognised importers" will be arranged, as far as possible, for the import of these items from the United Kingdom in sufficient quantities to meet the essential requirements of the Jute Industry as a whole. If any Jute mill is in very urgent need of any particular item, the Controller of Supplies should be informed in the first instance.

(*d*) Jute mills and importing firms are also required to declare by the 20th April 1943 the stocks held by them as at 31st December, 1942, on Form J. I. C. II which can also be obtained now from the Controller of Supplies (Bengal Circle).

NOTE.—All correspondence directed to the Controller of Supplies in connection with the foregoing should be sent in covers addressed :—

(*d*) in sub-section (*5*), the words "before an internal sale quota has been allotted to an estate" shall be omitted.

11. *Amendment of section 29, Act VII of 1942.*—In sub-section (*1*) of section 29 of the said Act, after the words "having regard to the internal sale quota of the estate" the words "where one has been allotted" shall be inserted, and to the end of the sub-section the following sentence shall be added, namely :—

"Where no internal sale quotas have been allotted to estates, the curing establishment shall report merely the whole amount of coffee sent in each such consignment."

12. *Amendment of section 34, Act VII of 1942.*—To sub-section (*2*) of section 34 the following proviso shall be added, namely :—

"Provided that in calculating the sum of all payments made under sub-section (*1*) and the value of the coffee delivered to the surplus pool out of the year's crop, respectively, any payment accepted by a registered owner as final payment in immediate settlement for coffee delivered by him for inclusion in the surplus pool and the value of any such coffee shall be excluded."

13. *Insertion of new section 37A in Act VII of 1942.*—After section 37 of the said Act the following section shall be inserted, namely :—

"37A. *Contravention of section 23 (1).*—Any registered owner who fails to furnish the return required by sub-section (*1*) of section 23 as required by that sub-section shall be punishable with fine which may extend to one thousand rupees."

14. *Insertion of new sections 38A and 38B in Act VII of 1942.*—After section 38 of the said Act the following sections shall be inserted, namely :—

"38A. *Contravention of section 25.*—Any registered owner or licensed curer who fails to deliver any coffee to the Board as required by or under sub-sections (*1*) and (*2*) of section 25 shall be punishable with fine which may extend to one thousand rupees, and the Court by which such person is convicted may order the confiscation and delivery to the Board of any coffee in respect of which the offence was committed.

38B. *Powers to seize coffee withheld from inclusion in surplus pool.*—If the Board is satisfied that any coffee which is required under the provisions of section 25 to be delivered for inclusion in the surplus pool is being or is likely to be disposed of otherwise than by such delivery, the Board may order the seizure of such coffee, and may authorise an officer of the Board to effect seizure thereof for delivery for inclusion in the surplus pool, and such authorisation shall be sufficient warrant for such officer to take all steps necessary to secure possession of the coffee."

15. *Amendment of section 40, Act VII of 1942.*—To sub-section (*2*) of section 40 of the said Act the following proviso shall be added, namely :—

"Provided that the Central Government may, by notification in the official Gazette, direct that the previous sanction of the Central Government shall not be necessary for complaints in such cases or classes of cases as may be specified in the notification."

16. *Amendment of section 44, Act VII of 1942.*—In section 44 of the said Act, after the words "curing establishment" the words "or any place where coffee is stored or exposed for sale" shall be inserted, and the words "by the estate" shall be omitted.

17. *Amendment of section 46, Act VII of 1942.*—In section 46 of the said Act, the words "to whom an internal sale quota is allotted" shall be omitted.

18. *Insertion of new section 47A in Act VII of 1942.*—After section 47 of the said Act the following section shall be inserted, namely :—

> "47A. *Bar of legal proceedings.*—No suit, prosecution or other legal proceeding shall lie against the Board or any officer of the Board for or in respect of anything in good faith done or intended to be done under this Act."

THE INDIAN FINANCE ACT, 1943.

THE following Act of the Indian Legislature received the assent of the Governor General on the 29th March 1943 :—

ACT No. VIII OF 1943.

An Act, to fix the duty on salt manufactured in, or imported by land into, certain parts of British India, to fix maximum rates of postage under the Indian Post Office Act, 1898, to continue for a further period of one year the additional duties of customs imposed by section 6 of the Indian Finance Act, 1942, to fix rates of income-tax and super-tax, to continue the charge and levy of excess profits tax and fix the rate at which excess profits tax shall be charged, and to amend the Indian Finance (Supplementary and Extending) Act, 1931.

WHEREAS it is expedient to fix the duty on salt manufactured in, or imported by land into, certain

parts of British India, to fix maximum rates of postage under the Indian Post Office Act, 1898 (VI of 1898), to continue for a further period of one year the additional duties of customs imposed by section 6 of the Indian Finance Act, 1942 (XII of 1942), to fix rates of income-tax and super-tax, to continue the charge and levy of excess profits tax and fix the rate at which excess profits tax shall be charged, and to amend the Indian Finance (Supplementary and Extending) Act, 1931;

It is hereby enacted as follows:—

1. *Short title and extent.*—*(1)* This Act may be called the Indian Finance Act, 1943.

(2) It extends to the whole of British India.

2. *Fixation of salt duty.*—The provisions of section 7 of the Indian Salt Act, 1882 (XII of 1882), shall, in so far as they enable the Central Government to impose by rule made under that section a duty on salt manufactured in, or imported into, any part of British India, be construed as if, for the year beginning on the 1st day of April 1943, they imposed such duty at the rate of one rupee and four annas per maund of eighty two and two-sevenths pounds avoirdupois of salt manufactured in, or imported by land into, any such part, and such duty shall, for all the purposes of the said Act, be deemed to have been imposed by rule made under that section.

3. *Inland postage rates.*—For the year beginning on the 1st day of April 1943, the Schedule contained in Schedule I to this Act shall be inserted in the Indian Post Office Act, 1898 (VI of 1898), as the First Schedule to that Act.

4. *Continuation of additional duties of customs imposed by section 6, Act XII of 1942.*—The additional duties of customs on certain goods chargeable with a duty of customs under the First Schedule to the Indian Tariff Act, 1934 (XXXII of 1934), or under the said Schedule read with any notification of the Central Government for the time being in force, imposed up to the 31st day of March, 1943, by section 6 of the Indian Finance Act, 1942 (XII of 1942), shall be levied and collected as provided in that section up to the 31st day of March, 1944.

5. *Income-tax and super-tax.*—*(1)* Subject to the provisions of sub-sections *(2)* and *(3)*,—

(a) income-tax for the year beginning on the 1st day of April, 1943, shall be charged at the rates specified in Part I of Schedule II increased in the cases to which sub-paragraph *(b)* of paragraph A and paragraph B of that Part apply by a surcharge for the purposes of the Central Government at the rate specified therein in respect of each such rate of income-tax, and

(b) rates of super-tax for the year beginning on the 1st day of April, 1943, shall, for the purposes of section 55 of the Indian Income-tax Act, 1922 (XI of 1922), be those specified in Part II of Schedule II increased in the cases to which paragraphs A, B and C of that Part apply by a surcharge for the purposes of the Central Government at the rate specified therein in respect of each such rate of super-tax.

(2) In making any assessment for the year ending on the 31st day of March, 1944,—

(a) where the total income of an assessee, not being a company, includes any income chargeable under the head "Salaries" or under the head "Interest on Securities" or any income from dividends in respect of which he is deemed under section 49B of the Indian Income-tax Act, 1922 (XI of 1922), to have paid income-tax imposed in British India, the income-tax payable by the assessee on that part of his total income which consists of such inclusions shall be an amount bearing to the total amount of income-tax payable according to the rates applicable under the operation of the Indian Finance Act, 1942 (XII of 1942), on his total income the same proportion as the amount of such inclusions bears to his total income;

(b) where the total income of an assessee, not being a company, includes any income chargeable under the head "Salaries" on which super-tax has been or might have been deducted under the provisions of sub-section *(2)* of section 18 of the Indian Income-tax Act, 1922 (XI of 1922), the super-tax payable by the assessee on that portion of his total income which consists of such inclusions shall be an amount bearing to the total amount of super-tax payable according to the rates applicable under the operation of the Indian Finance Act, 1942 (XII of 1942), on his total income the same proportion as the amount of such inclusions bears to his total income.

(3) In cases to which section 17 of the Indian Income-tax Act, 1922 (XI of 1922), applies, the tax chargeable shall be determined as provided in that section but with reference to the rates imposed by sub-section *(1)* of this section, and in accordance with the provisions of sub-section *(2)* of this section where applicable.

(4) For the purposes of this section and of the rates of tax imposed thereby, the expression "total income" means total income as determined for the purposes of income-tax or super-tax, as the case may be, in accordance with the provisions of the Indian Income-tax Act, 1922 (XI of 1922).

(5) Notwithstanding anything contained in sub-section *(1)* or sub-section *(2)* no tax shall be payable in cases to which sub-paragraph *(a)* of paragraph A of Part I of Schedule II applies where the assessee deposits with the Central Government in such manner and in accordance with such conditions as the Central Government may by rule prescribe for the purposes of this sub-section an amount representing not less than one rupee for every complete unit of twenty-five rupees by which his total income exceeds seven hundred and fifty rupees.

(6) A deposit made in accordance with the provisions of sub-section *(5)* shall not in any way be capable of being charged and shall not be liable to

attachment under any decree or order of any Civil, Revenue or Criminal Court in respect of any debt or liability incurred by the depositor and neither the Official Assignee nor any receiver appointed under the Provincial Insolvency Act, 1920 (V of 1920), shall be entitled to or have any claim on any such deposit.

(7) Where the total income of an assessee referred to in sub-paragraph (*b*) of paragraph A of Part I of Schedule II does not exceed six thousand rupees, an amount representing one rupee for every complete unit of two hundred rupees of his total income as reduced by the income, if any, exempt from tax under any provision of the Indian Income-tax Act, 1922 (XI of 1922), or any notification issued thereunder shall be funded for the assessee's benefit and shall be paid to him on such date, not more than twelve months after the termination of the present hostilities, as the Central Government may fix :

Explanation.—In computing the amount to be funded under this sub-section if there is an incomplete unit amounting to one hundred rupees or more it shall be reckoned as a complete unit of two hundred rupees.

(*8*) Notwithstanding anything contained in sub-section (*7*) of section 8 of the Indian Finance Act, 1942 (XII of 1942), the amount to be funded under that sub-section for the assessee's benefit in respect of any assessment for the year ending on the 31st day of March, 1943, shall be calculated on his total income as reduced by the income, if any, exempt from tax under any provision of the Indian Income-tax Act, 1922 (XI of 1922), or any notification issued thereunder.

(*9*) The Central Government may, by notification in the official Gazette, make rules prescribing the manner and conditions referred to in sub-section (*5*).

6. *Continuance of and rate of excess profits tax.*—(*1*) In sub-clause (*a*) of clause (*6*) of section 2 of the Excess Profits Tax Act, 1940 (XV of 1940), for the words and figures " 31st day of March, 1943 " the words and figures " 31st day of March, 1944 " shall be substituted.

(*2*) The excess profits tax imposed by section 4 of the Excess Profits Tax Act, 1940 (XV of 1940), shall, in respect of any chargeable accounting period beginning after the 31st day of March, 1943, be an amount equal to sixty-six and two-thirds per cent of the amount by which the profits of the business during that chargeable accounting period exceed the standard profits.

7. *Amendment of section 5, Indian Finance (Supplementary and Extending) Act, 1931.*—In section 5 of the Indian Finance (Supplementary and Extending) Act, 1931, the words " motor spirit or kerosene " and the words and figures " or under the Motor Spirit (Duties) Act, 1917, or under the Indian Finance Act, 1922 " shall be omitted, and for the words " or under any of the said Acts " the words " or under the said Act " shall be substituted.

THE TOBACCO (EXCISE DUTY) ACT, 1943.

The following Act of the Indian Legislature received the assent of the Governor General on the 31st March 1943 :—

Act No. X of 1943.

An Act to provide for the imposition and collection of excise duties on tobacco.

Whereas it is expedient to impose excise duties on tobacco and to provide for the collection thereof ;

It is hereby enacted as follows :—

1. *Short title and extent.*—(*1*) This Act may be called the Tobacco (Excise Duty) Act, 1943.

(*2*) It extends to the whole of British India.

2. *Definitions.*—In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "tobacco" means any form of tobacco, whether cured or uncured, and whether manufactured or not, and includes the leaf, stalks and stem of the tobacco plant, but does not include any part of a tobacco plant while still attached to the earth ;

(*b*) "curing" includes wilting, drying, fermenting and any process for rendering tobacco fit for marketing or manufacture ;

(*c*) "manufacture" means the preparation of cigarettes, cigars, cheroots, *biris*, cigarette or pipe or hookah tobacco, chewing tobacco, or snuff ; and the word "manufacturer" shall be construed accordingly and shall include not only a person who employs hired labour for the production of these commodities, but also any person who engages in their production on his own account if his products are intended for sale ;

(*d*) "sale" and "purchase", with their grammatical variations and cognate expressions, mean any transfer of the possession of goods by one person to another in the ordinary course of trade or business for cash or deferred payment or other valuable consideration ;

(*e*) "wholesale dealer" means a person who buys or sells tobacco wholesale for the purpose of trade or manufacture, and includes a broker or commission agent who, in addition to making contracts for the sale or purchase of tobacco for others, stocks tobacco belonging to others as an agent for the purpose of sale ;

(*f*) "prescribed" means prescribed by rules made under this Act ;

(*g*) "factory" means any premises wherein tobacco is manufactured.

3. *Imposition and collection of excise duties on tobacco.*—There shall be levied and collected in such manner as may be prescribed duties of excise as, and at the rates, set forth in the Schedule on all cured tobacco in British India on the 1st day of April, 1943, on all tobacco cured in British India

on or after that date, and on all tobacco products mentioned in the Schedule and manufactured in British India on or after that date.

4. *Determination of value for the purposes of duty.*—Where under this Act any article is chargeable with duty at a rate dependent on the value of the article, such value shall be deemed to be the wholesale cash price for which an article of the like kind and quality is sold or is capable of being sold for delivery at the place of manufacture and at the time of its removal therefrom, without any abatement or deduction whatever except trade discount and the amount of the duty then payable.

5. *Power of Central Government to impose customs duty on cured tobacco.*—The Central Government may, by notification in the official Gazette, impose on cured tobacco, or any tobacco product mentioned in the Schedule, brought into British India from the territory of any Indian State not being territory which has been declared under section 5 of the Indian Tariff Act, 1934 (XXXII of 1934), to be foreign territory for the purposes of that section, a duty of customs equivalent to the excise duty imposed by this Act on the like tobacco cured or the like tobacco product manufactured in British India.

6. *Certain operations to be subject to licence.*—From such date as may be specified in this behalf by the Central Government by notification in the official Gazette, no person shall engage in the curing, wholesale purchase or sale (whether on his own account or as a broker or commission agent), storage, or manufacture, of tobacco, except under the authority and in accordance with the terms and conditions of a licence granted under this Act.

7. *Restriction on possession of unmanufactured tobacco.*—From such date as may be specified in this behalf by the Central Government by notification in the official Gazette, no person shall, except as provided by the rules made under this Act, have in his possession unmanufactured tobacco in excess of such quantity as may be prescribed for the purposes of this section as the maximum amount of unmanufactured tobacco or of any variety of unmanufactured tobacco which may be possessed at any one time by such a person.

8. *Form and conditions of licence.*—Every licence under section 6 shall be granted for such area, if any, for such period, subject to such restrictions and on such conditions, and in such form and containing such particulars, as may be prescribed.

9. *Penalty for contravention of section 6 or section 7.*—Whoever contravenes any of the provisions of section 6 or section 7 shall be punishable with imprisonment which may extend to six months, or with fine which may extend to two thousand rupees, or with both.

10. *Penalty for evasion of duty or failure to supply information.*—Whoever evades or attempts to evade the payment of any duty payable under this Act, or fails to supply any information which he is required by the rules made under this Act to supply, or (unless with a reasonable belief, the burden of proving which shall be upon him, that the information supplied by him is true) supplies false information, shall be punishable with imprisonment which may extend to six months, or with fine which may extend to two thousand rupees, or with both.

11. *Power of Courts to order forfeiture of tobacco.*—Any Court trying an offence under this Act may order that any tobacco in respect of which the Court is satisfied that an offence under this Act has been committed, shall, together with the packages or coverings thereof, be forfeited to His Majesty.

12. *Recovery of duty, etc.*—In respect of duty and other sums payable to the Central Government under any of the provisions of this Act or of the rules made thereunder, the officer empowered by the Central Board of Revenue to levy such duty or require the payment of such sums may prepare a certificate signed by him specifying the amount due from the person liable to pay the same and send it to the Collector of the district in which such person resides or conducts his business and the said Collector, on receipt of such certificate, shall proceed to recover from the said person the amount specified therein as if it were an arrear of land revenue.

13. *Application of the provisions of Act VIII of 1878 to the duties on tobacco.*—The Central Government may, by notification in the official Gazette, declare that any of the provisions of the Sea Customs Act, 1878 (VIII of 1878), relating to the levy of and exemption from customs duties, drawback of duty, warehousing, offences and penalties, confiscation, and procedure relating to offences and appeals shall, with such modifications and alterations as it may consider necessary or desirable to adapt them to the circumstances, be applicable in regard to like matters in respect of the duties on tobacco imposed by section 3.

14. *Power of Central Government to make rules.*—(*1*) The Central Government may, by notification in the official Gazette, make rules to carry into effect the purposes of this Act.

(*2*) In particular, and without prejudice to the generality of the foregoing power, such rules may—

(i) provide for the assessment and collection of the duties, the authorities by whom functions under this Act are to be discharged, the issue of notices requiring payment, the manner in which the duties shall be payable, and the recovery of duty not paid;

(ii) prohibit the curing or manufacture of tobacco except on land and premises approved for the purpose;

(iii) regulate the removal of tobacco from the place where grown, cured, stored or manufactured and its transport to or from the premises of a licensed curer, wholesale dealer or manufacturer, or a bonded warehouse or to a market;

(iv) regulate the curing, storage, wholesale sale and manufacture of tobacco, and provide for the appointment of officers of the Crown to supervise such curing, storage, wholesale sale and manufacture within any tobacco growing or manufacturing area ;

(v) provide for the appointment, licensing, amnagement and supervision of bonded warehouses and the procedure to be followed in entering tobacco into and clearing tobacco from such warehouses ;

(vi) impose on growers, curers, wholesale dealers, brokers, commission agents, or manufacturers, the duty of furnishing information, keeping records and making returns, and prescribe the nature of such information and the form of such records and returns, the particulars to be contained therein, and the manner in which they shall be verified ;

(vii) provide for the issuing of licences and transport permits and the fees, if any, to be charged therefor ;

(viii) provide for the detention of tobacco for the purpose of exacting the duty, the confiscation, otherwise than under section 11, of tobacco in respect of which breaches of the Act or rules have been committed, and the disposal of tobacco so detained or confiscated ;

(*ix*) authorise and regulate the inspection of factories, and the inspection or search of any place or conveyance used for the curing, storage, sale or transport of tobacco ;

(*x*) authorise and regulate the composition of offences against, or liabilities incurred under, this Act or the rules made thereunder ;

(*xi*) provide for the grant of a rebate of the duty paid on tobacco which is exported by sea to any country outside India or shipped for consumption on a voyage to any port outside India ;

(*xii*) exempt any tobacco from the whole or any part of the duty imposed by this Act ;

(*xiii*) authorise the Central Board of Revenue or Collectors appointed for the purposes of this Act to provide, by written instructions, for supplemental matters arising out of any rule made by the Central Government under this section.

(*3*) In making rules under this section the Central Government may provide that any person committing a breach of any rule shall, where no other penalty is provided by this Act, be liable to a penalty not exceeding two thousand rupees and that the article in respect of which any such breach is committed shall be confiscated.

THE VEGETABLE PRODUCT (EXCISE DUTY) ACT, 1943.

THE following Act of the Indian Legislature received the assent of the Governor General on the 31st March 1943 :—

ACT NO. XI OF 1943.

An Act to provide for the imposition and collection of an excise duty on vegetable product.

WHEREAS it is expedient to provide for the imposition and collection of an excise duty on vegetable product;

It is hereby enacted as follows :—

1. *Short title and extent.*—(*1*) This Act may be called the Vegetable Product (Excise Duty) Act, 1943.

(*2*) It extends to the whole of British India.

2. *Definitions.*—In this Act, unless there is anything repugnant in the subject or context,—

(*a*) " factory " means any premises wherein vegetable product is manufactured;

(*b*) " owner " includes any person expressly or impliedly authorised by an owner of a factory to be his agent in respect of the factory;

(*c*) " vegetable product " means any vegetable oil or fat which, whether by itself or in admixture with any other substance, has by hydrogenation or by any other process been hardened for human consumption.

3. *Imposition of and amount of duty.*—A duty of excise at the rate of five rupees per hundredweight shall be levied on all vegetable product manufactured in any factory in British India and issued out of such factory on or after the 1st day of April, 1943, and shall be payable by the owner of the factory.

4. *Recovery of duty with penalty.*—(*1*) If any duty payable under section 3 is not paid within the time fixed by a notice issued in accordance with any rules made in this behalf under this Act, it shall be deemed to be an arrear, and the authority to which such duty is payable may, in lieu thereof, recover any sum, not exceeding double the amount of the duty unpaid, which such authority may in its discretion think it reasonable to require.

(*2*) An arrear of duty, or any sum recoverable in lieu thereof under this section, shall be recoverable as an arrear of land-revenue and shall be recoverable in addition to, and not in substitution for, any other penalty incurred under this Act.

(*3*) Without prejudice to the provisions of sub-section (*2*), when under the provisions of sub-section (*1*) any duty is deemed to be an arrear, the authority by which the notice referred to in sub-section (*1*) was issued may direct that no issue of vegetable product shall be made and no plant, machinery or material shall be removed out of the factory whose owner has failed to pay the duty until the duty or the sum recoverable in lieu thereof is paid or recovered; and such direction shall have effect notwithstanding any change in the ownership of the factory.

(*4*) Any vegetable product issued, and any plant, machinery or material removed in contravention of a direction under sub-section (*3*) shall be liable to confiscation, and any person concerned in such issue or removal shall be punishable with fine which may extend to two thousand rupees.

5. *Issue from factory.*—(*1*) No vegetable product shall be issued out of any factory except in accordance with the provisions of rules made under section 8 regulating such issue, or until such rules are made, in accordance with the general or special orders of the Central Government.

(*2*) If any vegetable product is issued out of any factory contrary to the provisions of sub-section (*1*), any person concerned in such issue shall be punishable with fine which may extend to one thousand rupees or to a sum equal to double the amount of the duty on the vegetable product so issued, whichever is greater.

6. *Application of the provisions of Act VIII of 1878 to the duty on vegetable product.*—The Central Government may, by notification in the official Gazette, declare that any of the provisions of the Sea Customs Act, 1878 (VIII of 1878), relating to the levy of and exemption from customs duties, drawback of duty, warehousing, offences and penalties, confiscation and procedure relating to offences and appeals shall, with such modifications and alterations as it may consider necessary or desirable to adapt them to the circumstances, be applicable in regard to like matters in respect of the duty imposed by section 3.

7. *Power of Central Government to impose a duty of customs or to prohibit import.*—The Central Government may, by notification in the official Gazette, impose on vegetable product brought into British India from the territory of any Indian State, not being territory which has been declared under section 5 of the Indian Tariff Act, 1934 (XXXII of 1934), to be foreign territory for the purposes of that section, a duty of customs equivalent to the excise duty imposed by this Act on vegetable product manufactured in British India, or prohibit absolutely, or with such exceptions as it thinks fit, the bringing of vegetable product into British India from the territory of any specified Indian State.

8. *Power to make rules.*—(*1*) The Central Government may, by notification in the official Gazette, make rules—

(*a*) imposing on owners of factories the duty of furnishing returns and keeping records and books, and prescribing the form of such returns, records and books and the particulars to be contained therein, and the manner in which the same are to be verified;

(*b*) regulating the issue of vegetable product out of factories;

(*c*) providing for the assessment and collection of the duty, the issue of notices requiring payment, the authority to whom the duty shall be payable and the recovery of arrears;

(*d*) specifying the manner in which directions under the provisions of sub-section (*3*) of section 4 shall be made and communicated, and determining when such directions shall be deemed to become effective:

(*e*) authorising and providing for the inspection of factories; and

(*f*) generally for carrying into effect the provisions of this Act.

(*2*) Such rules may provide that any breach thereof shall be punishable with fine which may extend to five hundred rupees:

Provided that the breach of any rule made under clause (*b*) of sub-section (*1*) shall be punishable with the punishment provided for an offence against section 5.

THE INDIAN TEA CONTROL (AMENDMENT) ACT, 1943.

The following Act of the Indian Legislature received the assent of the Governor General on the 31st March 1943:—

ACT No. XII OF 1943.

An Act further to amend the Indian Tea Control Act, 1938.

Whereas it is expedient further to amend the Indian Tea Control Act, 1938 (VIII of 1938)*, for the purposes hereinafter appearing;

It is hereby enacted as follows:—

1. *Short title and commencement.*—(*1*) This Act may be called the Indian Tea Control (Amendment) Act, 1943.

(*2*) It shall be deemed to have taken effect immediately before the expiration of the 31st day of March, 1943.

2. *Amendment of section 1, Act VIII of 1938.*—In section 1 of the Indian Tea Control Act, 1938 (VIII of 1938) (hereinafter referred to as the said Act), for sub-section (*4*) the following sub-section shall be substituted, namely:—

"(*4*) It shall remain in force only up to the end of the twenty-four months commencing on the 1st day of April subsequent to the termination of the present hostilities."

3. *Amendment of section 2, Act VIII of 1938.*—In section 2 of the said Act, in sub-clause (*i*) of clause (*h*), after the words and figures "and Chapter IV" the words "and in the Schedule" shall be inserted.

4. *Amendment of section 3, Act VIII of 1938.*—In section 3 of the said Act, for sub-sections (*2*) and (*3*) the following sub-sections shall be substituted, namely:—

"(*2*) Members nominated or elected under sub-section (*1*) shall hold office for the duration of this Act.

(*3*) The Committee shall be a body corporate by the name of the Indian Tea Licensing Committee, having perpetual succession and a common seal, with power to acquire and hold property and to contract, and shall by the said name sue and be sued."

5. *Amendment of section 4, Act VIII of 1938.*—In section 4 of the said Act, in sub-section (*2*), for the words following the words "the Central Government may" the following shall be substituted, namely:—

"in the case of an elected member, nominate a successor chosen to represent the body entitled to make the first election under section 3, and in the case of a nominated member, nominate a successor on the recommendation of the authority or body entitled to make the first nomination under section 3, or, if such recommendation is not made within two months, without such recommendation."

6. *Insertion of new section 5A in Act VIII of 1938.*—After section 5 of the said Act the following section shall be inserted, namely:—

"5A. *Power of Central Government to appoint additional member of Committee to act as chairman.*—Notwithstanding anything elsewhere contained in this Act, the Central Government may appoint any person to be an additional member of, and to act as chairman of, the committee, and on such appointment being made the chairman of the committee elected under section 5 shall cease to exercise the functions of chairman."

7. *Amendment of section 10, Act VIII of 1938.*—In section 10 of the said Act, in clause (*h*), the words "the term of office of members of the Committee and" shall be omitted, and after the words "by which members" the words "of the Committee" shall be inserted.

8. *Amendment of section 11, Act VIII of 1938.*—In section 11 of the said Act,—

(*a*) in clause (*b*), after the word "vessel," in both places where it occurs, the words "or aircraft" shall be inserted;

(*b*) to clause (*c*) the word "or" shall be added, and after that clause the following clause shall be added, namely:—

"(*d*) exported by a Red Cross Society with the previous sanction of the Central Government within the limits prescribed in this behalf."

9. *Amendment of section 12, Act VIII of 1938.*—In section 12 of the said Act,—

(*a*) in sub-section (*2*), after the word "tea" the words "or tea seed" shall be inserted;

"14A. *Power of Central Government to revise crop basis.*—The crop basis of a tea estate as determined or re-determined by the Committee may be revised by the Central Government if the Central Government is satisfied that the Committee in determining or re-determining it acted upon information which was either incorrect or deceptive."

12. *Amendment of section 15, Act VIII of 1938.*—To sub-section (*1*) of section 15 of the said Act the following proviso shall be added, namely :—

"Provided that for the purpose of restricting in any year the amount of tea exported from British India the Central Government may direct that the quota shall, for the purposes of this sub-section, be deemed to be reduced by such proportion as is necessary to effect the desired restriction."

13. *Amendment of section 16, Act VIII of 1938.*—In section 16 of the said Act, in sub-section (*2*), after the word "quota" the following shall be inserted, namely :—

"or of the quota as deemed to be reduced in accordance with any direction made under the proviso to sub-section (*1*) of section 15",

and to the said sub-section the following proviso shall be added, namely :—

"Provided that, if the Central Government has at any time decided that it is desirable to restrict exports of tea from British India, the Committee may, with the general or special previous sanction of the Central Government, refuse to issue export licences."

14. *Amendment of section 17, Act VIII of 1938.*—In section 17 of the said Act,—

(*a*) in sub-section (*2*), after the words "under this Act" the words "or in respect of which an export licence would, but for the operation of a direction made under the proviso to sub-section (*1*) of section 15, have been obtainable" shall be inserted ;

(*b*) for sub-section (*2A*) the following sub-sections shall be substituted, namely :—

"(*2A*) Where, in pursuance of sub-section (*1*) or sub-section (*2*) of section 7, the owner of a tea estate receives a right to obtain export licences for a further quantity of tea, he may, within one month from the date of the order whereby he receives such right, apply to the Committee for a special export licence covering that further quantity, and the Committee shall, on receipt of the requisite fee, if any, issue a special licence accordingly.

(*2B*) A person, to whom a special export licence has been issued under sub-section (*2*) or sub-section (*2A*), may transfer the special export licence with all the rights conferred thereby within a period of six months from the date on which it was granted to a person or persons nominated by him, but a licence once so transferred shall not be further transferable.";

(*c*) in sub-section (*3*),—

(*i*) the words and figures "in the case of a special export licence issued in the year 1938 up to the 30th day of June of that year and in the case of a special export licence issued in any subsequent year" shall be omitted, and for the words "May of the year" the words "March of the financial year" shall be substituted ;

(*ii*) the proviso shall be omitted ;

(*d*) in sub-section (*4*), the words and figures "or under the Tea Control Act, 1933, as the case may be" shall be omitted ;

(*e*) after sub-section (*4*) the following sub-section shall be added, namely :—

"(*5*) Notwithstanding anything contained in the foregoing sub-sections, the Committee may postpone for so long as the Central Government may require the issue of any special export licence."

" CHAPTER VI.

SUSPENSION OF OPERATION OF ACT.

40. *Suspension of operation of Act.*—(*1*) If the Central Government is satisfied that an emergency has arisen rendering it necessary for the security of India that certain of the restrictions imposed by this Act should cease to be imposed, the Central Government may, by notification in the official Gazette, suspend or relax to a specified extent either indefinitely or for such period as may be specified in the notification the operation of all or any of the provisions of this Act.

(*2*) Where the operation of certain provisions of this Act has under sub-section (*1*) been suspended or relaxed indefinitely, such suspension or relaxation may at any time while this Act remains in force be removed by the Central Government by notification in the official Gazette."

25. *Substitution of new Schedule for the Schedule to Act VIII of 1938.*—For the Schedule to the said Act the following shall be substituted, namely :—

" THE SCHEDULE.

[*See* section 14 (*2*).]

Principles to be followed in determining the Crop Basis of a Tea Estate.

1. Where a tea estate has before the 1st day of April, 1943, received an export quota under this Act, the crop basis of the estate for the financial year beginning on that date, or for any subsequent financial year shall be the highest crop basis assigned to the estate under this Act for any of the financial years beginning on the 1st day of April, 1940, 1941 or 1942 (herein referred to as the cardinal crop basis) increased by any admissible allowance of either of the following kinds, namely :—

(*a*) An allowance for young areas, that is, areas planted with tea on or after the 1st day of January, 1926, determined in the prescribed manner in accordance with the prescribed rules :

Provided that any young areas in respect of which an allowance has been made in determining the cardinal crop basis shall be excluded.

(*b*) An allowance for low producing areas determined in the prescribed manner :

Provided that any low producing areas in respect of which an allowance has been made in determining the cardinal crop basis shall be excluded.

2. Where the area of a tea estate for which a crop basis has been determined is reduced or increased by the transfer to or acquisition from another tea estate of land planted with tea, the crop basis of the estate shall be reduced or increased by an amount representing as nearly as possible the contribution made by the area transferred or acquired to the crop basis of the estate of which it previously formed a part.

3. Where a tea estate for which a crop basis has been determined subsequently becomes two or more separate estates the crop basis of each such separate estate shall be determined so as to represent as nearly as possible the contribution made by the area comprised in it to the total crop basis of the original estate."

GIFTS FROM ABROAD—IMPORT CONDITIONS.

The attention of persons concerned is invited to the Notice on the above subject published in the Supplement to the *Indian Trade Journal* of the 23rd April 1942 (page 12). Information has since been received in this Department that attempts are sometimes made by senders in India of gift parcels to the United Kingdom to evade the 5 lbs. limit for such parcels by sending several parcels at a time. Persons interested are therefore warned of the consequences of trying to evade the 5 lbs. limit or any of the other import conditions. Parcels contravening those conditions are liable to seizure on arrival in the United Kingdom.

WEEKLY CROP REPORTS.

BENGAL.

7th April.

The condition of the standing crops is generally fair. Sowing of autumn crops is much advanced.

ASSAM.

12th April.

Planting of autumn rice and sowing of jute have been delayed. The condition of lac is good.

BIHAR.

29th March.

The condition of the standing crops, including sugarcane, is generally fair. Crushing of sugarcane is in progress. Harvesting of *rabi* crops is going on at some places.

CENTRAL PROVINCES AND BERAR.

2nd April.

Harvesting of wheat, gram and linseed was in progress in parts of the Jubbulpore and Chhattisgarh divisions. Threshing and winnowing of *rabi* crops were going on throughout the Province. Agriculturists were busy with the cultivation of land and repairing of field embankments for the next season.

MADRAS.

3rd April.

Sowing of paddy and dry crops was proceeding in parts of the South. The condition of the standing crops was generally fair except in parts of the Deccan.

ORISSA.

5th April.

Crushing of sugarcane continues in the Koraput district. Wheat and *jhain mung* in the Cuttack district and *biri, mung, kulthi, mandia* and linseed in the Puri district are under harvest. *Dalua* paddy is being harvested in the Puri district, is ripening in the Cuttack district and is in ears in the Balasore district. Tobacco and sugarcane in the Cuttack district, sugarcane in the Balasore district, tobacco, castor and sugarcane in the Puri district, *ragi*, *dalua* paddy and gingelly in the Ganjam district and *ragi* in the Koraput district, are thriving. *Til* is in flowers and pods in the Puri district. Lands are being prepared for the next crop in the Balasore and Sambalpur districts.

PUNJAB.

5th April.

The condition of the standing crops is generally average to above average on irrigated and below average to average on unirrigated areas. Swarms of locusts appeared in parts of the Jhelum district and caused slight damage to crops. Gram is reported to have been affected by gram-blight in Pindigheb *tahsil* of the Attock district.

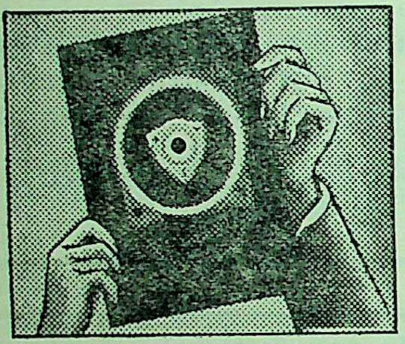
Photography in Industry

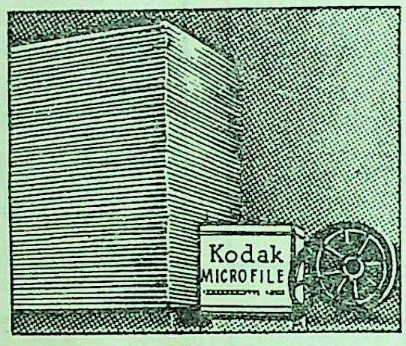
DID you know that the industrial development of this century is largely due to photography?

Applied photography has carried scientific research into regions where the eye is helpless, and is providing vital knowledge in many basic processes. And outside the research laboratory, photography is helping in the factory to speed up production and to cut down costs.

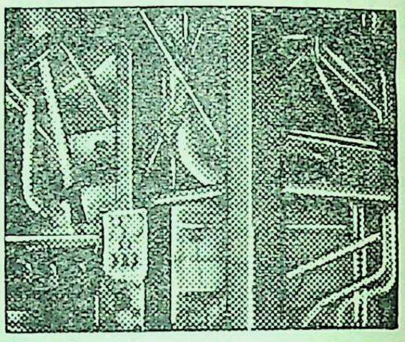
Just as photography is serving industry, so Kodak is serving photography. Kodak research and experience are concentrated upon providing new and better methods and the right materials.



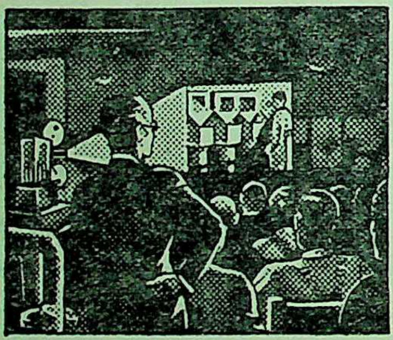
RADIOGRAPHY permits inspection of raw materials before use, and of castings for flaws. Assembled units also can be inspected for errors.



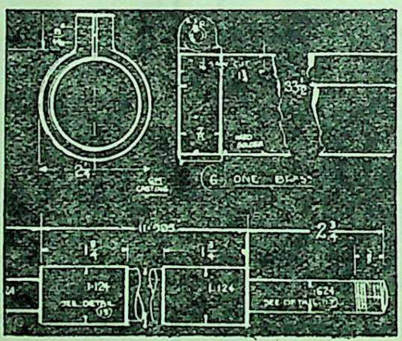
MICROFILMING enables voluminous records to be stored in a very small space. A 100 feet of miniature film substitutes 2,350 copies of letters.



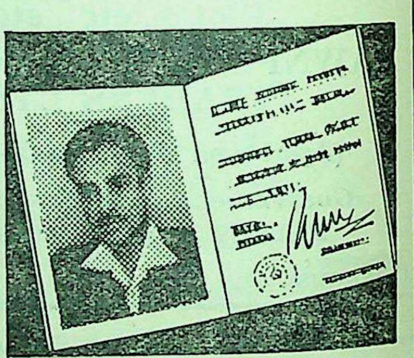
INFRA-RED PHOTOGRAPHY is particularly helpful in studying the distribution of surface temperature and in tracing heat loss.



CINE-PHOTOGRAPHY can be used for such different purposes as resolving high-speed phenomena and staff or trade instruction.



PHOTOSTAT equipment provides unlimited facsimiles of plans and drawings, specifications and schedules in a fraction of the time usually needed.



STILL PHOTOGRAPHY also plays an important part in such applications as instructional photographs and identification passes.

Perhaps photography in one of its branches can help you. Priorities are needed for most special apparatus but full information will be given if you write to Kodak Ltd., Hornby Road, Bombay.

NOTES.

INDIAN CUSTOMS AND CENTRAL EXCISE REVENUE—

The total gross Indian Sea and Land Customs Revenue, excluding Salt Revenue, collected in British India during the month of March 1943 amounted to Rs. 2,69 lakhs, as compared with Rs. 4,11 lakhs in February 1943, and Rs. 4,40 lakhs in March 1942. The total gross Central Excise duties on motor spirit, kerosene, sugar, matches, etc., amounted to Rs. 1,12 lakhs in March 1943, as compared with Rs. 1,09 lakhs in February 1943, and Rs. 1,28 lakhs in March 1942. The grand total of gross Customs and Central Excise Revenues realised in the twelve months ended March 1943, was Rs. 47,29 lakhs as compared with Rs. 55,00 lakhs during the same period of the preceding year. Of this amount, import duties accounted for Rs. 31,55 lakhs, export duties for Rs. 2,63 lakhs, land customs and miscellaneous for Rs. 62 lakhs and central excise duties for Rs. 12,49 lakhs. Comparing the figures for the year ending March 1943, with those for the preceding year, there were decreases under import duties on silver bullion, coin, sheets, plates and other manufactures, kerosene oil, cotton fabrics, artificial silk fabrics, artificial silk yarn and thread, motor vehicles, betelnuts, iron and steel, machinery, raw silk, liquors, matches, match splints and veneers, metals other than iron and steel, etc., silk fabrics, tin (block), dyes derived from coal-tar and coal-tar derivatives, cotton yarn and thread, pneumatic rubber tyres and tubes, fabrics of artificial silk mixed with other materials, silk yarn and thread, toys, games and sports goods, cotton hosiery, railway plant and rolling stock, electric lighting bulbs, wood pulp and sugar, under export duties on jute, raw and manufactured, rice and other agricultural produce, and under excise duties on sugar and steel ingots. On the other hand, import duties on motor spirit, tobacco, raw cotton, batching, fuel and lubricating oils, wireless reception instruments and apparatus, spices, tea, land customs receipts and the excise duties on motor spirit, matches and kerosene showed increases.

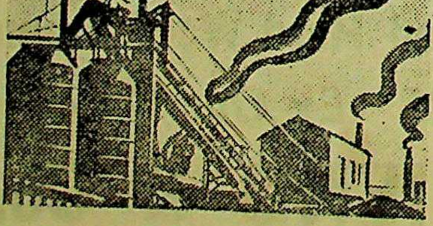
KNOWLEDGE GAINED SOME THOUSAND YEARS AGO-

paved the way to present-day achievements.

Some thousands of years ago, the Asuras, ancient enemies of the Gods, brought an end to the stone age in India with their discovery of metal. Historians connect this ancient tribe with the Agaria, who even unto this day are the iron smelters and blacksmiths of the Central Provinces. For centuries their simple ploughs and harrows have raised rich crops in the wild uplands of the Maikal Hills.



At this time when Indian industries are rapidly expanding in the development of which iron and steel play such a vital part, we pay homage to this ancient tribe, whose iron brought the law of plenty to the jungle—so long ago.

NOTE ON THE PRODUCTION OF SUGAR REFI FROM *GUR* IN INDIA, 1942

By

R. C. Srivastava, Esq., B.Sc., O.B.E.,

Director, Imperial Institute of Sugar Technology, India, Caw

I.—Introduction.

The production of sugar by refining *gur*, in India, in 194 lower than in any former year, being only 13,400 tons agai previous low record of 14,200 tons in 1939. Between 193 1939, the output of *gur* sugar steadily decreased owing to th creasingly severe competition of cane sugar factories; *gur* output decreased from over 80,000 tons in 1933 to 14,20 in 1939. In the next two years the production increased s owing to plentiful supplies of cheap *gur*, the compulsory tion of the production of sugar directly from cane in the U Provinces and Bihar having left large quantities of cane i growers' hands for the manufacture of *gur*. The producti to 48,500 tons in 1941. The failure of the cane crop in 1 reduced the supply of *gur* in the country, while its dem creased owing to shortage of sugar. *Gur*, therefore, became and dear, and the production of sugar from *gur* dropped in 1942.

MARKET REPORT ON LINSEED AND LINSEED OIL.

Indian Market Report.

***Calcutta**, 26th April*—

Quotations for Linseed Oil—

Linseed oil, Calcutta Mills (Raw) . .	Rs. 32-0-0 per md. loose.
Linseed oil, Calcutta Mills (Boiled) . .	Rs. 34-0-0 per md. loose.

Summary of Market Conditions.—The linseed market has remained very firm throughout the week and prices have shown a further bullish trend. Activities on the whole appear to have slightly decreased owing mainly to the large business that has already been done, and also to the unchecked advance in rates. Local mills who are still the only buyers in the market, have still been showing keenness and may be interested in quantities even at the prevailing rates. Shippers have again remained entirely out of the market.

***Bombay**, 22nd April*—

CROP FORECASTS.

(*ALL-INDIA*)

SECOND WHEAT FORECAST, 1942-43.

Calcutta, March 15, 1943.

This forecast is based on reports received from provinces and States, which comprise 98 per cent of the total wheat acreage in India. The statistics given in this forecast, therefore, cover all the important wheat-growing areas in India, except Kashmir for which no forecast is prepared. The condition of the crop stated below generally relates to that prevailing in the latter half of February.

The total area sown is estimated at 34,311,000 acres, as against 32,349,000 acres (revised) at the corresponding date of last year, or an increase of 6 per cent.

The present condition of the crop is reported to be good on the whole.

The detailed figures for the provinces and States are given below :—

(*a*) Including Indian States.
(*b*) Including Rampur State.
(*c*) Including Eastern Agency States, formerly Central Provinces States.
(*d*) Including Khairpur State.
(*e*) Revised.

The provincial reports are summarised below. The figures in brackets following the name of each province or State indicate the average percentage of wheat area in that tract to the total area under wheat in India based on the figures for the five years ending 1940-41.

Punjab (31·5 per cent).—The area sown in the British districts is now estimated at 10,269,000 acres, as against 9,700,000 acres, the corresponding area of last year, or an increase of 6 per cent. The area in the Indian States is now returned at 1,575,000 acres, which is 13 per cent above the corresponding estimate of last year. The total area for the whole province thus amounts to 11,844,000 acres, as against 11,095,000 acres at this time last year, or an increase of 7 per cent. The increase is attributed partly to favourable climatic conditions at sowing time and partly to "Grow more food crops" campaign. Light to moderate but widespread rain fell in January, and light rain was received in February. These rains proved beneficial to the standing crop. The condition of the crop in the British districts is estimated at 97 per cent of the normal, while that in the Indian States is reported to be generally good.

United Provinces (23 per cent).—In the first forecast issued in January last, the area sown in the British districts was estimated at 8,071,000 acres, as against 7,358,000 acres at the corresponding period last year. No change has since been made in this estimate. The area sown in the Rampur State is now returned at 112,000 acres. The total area sown thus comes to 8,183,000 acres, as compared with 7,466,000 acres estimated at this time last year, or an increase of 10 per cent. The rainfall in January was widespread and above the normal and proved beneficial to the crop. There was also some rain in the first half of February. Slight damage is reported to have been caused by strong winds, rats, white ants, rust and hail in some districts. The average outturn of the crop for the province is at present roughly estimated at 89 per cent of the normal, as compared with the past ten years' average of 78 per cent.

Central Provinces and Berar (9·4 per cent).—The area sown is estimated at 2,764,000 acres (70,000 acres being in five Eastern Agency States), which is 7 per cent below the corresponding area of last year. The decrease is attributed to the early withdrawal of the monsoon and the consequent lack of moisture in the soil at sowing time. The prolonged dry

weather from October to the third week of December, coupled with the absence of dewfall, stunted the growth of the crop and caused withering in parts of many districts particularly on lighter soils. But rain in the last week of December and the first half of January is reported to have benefited the crop. Slight damage to the crop was, however, caused in parts of nine districts by rain and hail in the second week of January. Rust also very slightly affected the crop in places in a few districts. The average outturn for the British districts is at present estimated at 80·5 per cent of the normal, as against 55·5 per cent at the corresponding period of last year; and on this basis, the total yield is estimated at 548,000 tons, as compared with 404,000 tons at this time last year.

Bombay (6 per cent).—The area sown up to the 15th February, 1943, is estimated at 1,625,000 acres (335,000 acres being in the Indian States), showing a decrease of 15 per cent as compared with the corresponding area of last year, due to deficient rains at sowing time. In Gujarat, the crop is reported to be thriving well and free from disease, but it has been slightly damaged by field rats in places in the north of the division. In the Deccan also, the crop is progressing fairly satisfactorily. Slight rat trouble is, however, reported from the East Khandesh and rust attack from the Satara district. In the Karnatak, the crop has suffered from deficient soil-moisture due to failure of late rains and is also reported to have been attacked by rust to a varying degree; as a result, a low outturn is expected for this division.

Sind (3·5 per cent).—The area sown is estimated at 1,428,000 acres (112,000 acres being in the Khairpur State), as against 1,310,000 acres, the corresponding area of last year.

Bihar (3·1 per cent).—The area sown is estimated at 1,279,000 acres, as against 1,080,000 acres at this time last year, or an increase of 18 per cent. The increase is general and is attributed to favourable weather and the high price of the crop. The condition factor of the crop for the province as a whole, is estimated at 90 per cent of the normal, as compared with the past ten years' average of 87 per cent. This means that this year's probable outturn is estimated at 103 per cent of the last ten years' average.

North-West Frontier Province (2·9 per cent).—The area sown is estimated at 1,155,000 acres, as against 1,070,000 acres (revised) at the corresponding time last year. The outturn is at present expected to be average; and the total yield is now approximately estimated at 316,000 tons, as against 295,000 tons (revised) at this time last year. Rain in February has proved beneficial to the standing crop, particularly in unirrigated tracts.

Bengal (0·5 per cent).—The area sown amounts to 176,000 acres, as against 170,000 acres at this time last year. Weather conditions have generally been fairly favourable for the growth of the crop. The average outturn for the province works out at 78 per cent of the normal, as against 76 per cent at the corresponding time last year.

Delhi (0·1 per cent).—The area sown is estimated at 22,000 acres, as against 13,000 acres, the corresponding area of last year. The increase is attributed to "Grow more food crops" campaign. The general condition of the crop is reported to be average.

Ajmer-Merwara (0·1 per cent).—The area sown is reported to be 18,000 acres, as against 13,000 acres at the corresponding time last year.

Orissa (0·01 per cent).—The area sown is reported to be 4,000 acres, which is practically the same as at this time last year. The weather has been favourable and the average outturn of the crop for the province is estimated at 87 per cent of the normal.

Central India (6·1 per cent).—The total area is estimated at 1,999,000 acres, as against 1,949,000 acres, the corresponding estimate (revised) of last year. The detailed figures for the different Agencies are as follows:—

Gwalior (4·3 per cent).—The area sown is estimated at 1,445,000 acres, as against 1,303,000 acres at this time last year. The crop is reported to have been damaged by hailstorm and frost in places, but its condition is, on the whole, reported to be good.

Rajputana (3·7 per cent).—The total area sown is reported to be 1,382,000 acres, as against 1,094,000

Imports.—The imports of wheat during the official year 1941-42 amounted to 18,000 tons, as compared with 18,800 tons and 85,500 tons during the years 1940-41 and 1939-40, respectively.

Wheat in Foreign Countries.—From information available in this Department, it appears that the estimates of the wheat crop of the United States of America for 1942 are 53·4 million acres and 984 million bushels (or 26·4 million tons), as compared with 55·8 million acres and 945·9 million bushels (or 25·3 million tons) in 1941. The yield of the Canadian wheat crop of 1942 is estimated at 592,684,000 bushels (or 15,875,000 tons), as against 314,825,000 bushels (or 8,433,000 tons) in 1941. The estimates of the Australian wheat crop for 1942-43 are placed at 11 million acres and 150 million bushels (or 4 million tons), as against 12·1 million acres and 167 million bushels (or 4·5 million tons) in the preceding season. In Argentina, the area sown with wheat during 1942-43 is estimated at 16·4 million acres, as against 18 million acres in 1941-42. The yield of the crop for 1942-43 is placed at 242 million bushels (or 6·5 million tons), as compared with 224 million bushels (or 6 million tons) in 1941-42.

SUPPLEMENTARY MEMORANDUM ON THE SESAMUM (*TIL* OR *JINJILI*) CROP, 1942-43.

(*Calcutta, April 27 1943.*)

THIS memorandum deals with the final estimates of the sesamum crop received from Madras and supplements the Final General Memorandum on the crop issued on the 26th January last.

Madras.—The area is estimated at 739,000 acres, as compared with 693,000 acres last year. The yield is estimated at 84,000 tons, which is practically the same as in last year. The yield is estimated to be normal in Salem, Tinnevelly and South Kanara and below the normal in other districts. The condition of the late sown crop is reported to be generally fair. The seasonal factor for the province as a whole, works out at 84 per cent of the average, as against 89 per cent last year.

Consequent on the revised figures noted above and also on the receipt of revised estimates for the United Provinces, the estimates in the table appended to the Final General Memorandum on the crop, issued in January last, require modification and the general results for all the provinces and States, from which reports are received, now stand as follows :—

	Area (Acres).	Yield (Tons)
1942-43	4,328,000	463,000
1941-42	4,145,000	414,000
Average for five years ending 1940-41	4,224,000	432,000

The detailed figures for the provinces and States are given appended statement.

In addition to the area for which particulars are given the crop is grown in certain other tracts* in India, the area so grown for the last five years being about 707,0 with an estimated production of 76,000 tons.

Exports.—The quantity exported by sea from British I foreign countries during the five official years ending 1941-4 as follows :—

	To
1937-38	10,1
1938-39	7,6
1939-40	3,5
1940-41	3,9
1941-42	8,6

Chart.—The following charts show the variations in the p estimates of the total area and yield as compared with th figures of the preceding nine years :—

STEEL FOR
STRENGTH

Since the conception of crude steel in the dark ages and during its steady growth through the years, progress in purity as well as in strength was and is of paramount importance.

To-day's modern methods of intensive selection produce perfect steel, strong and pure, to meet the most exigeant demands of India's growing industries.

Ilford Films for MICRO-COPYING

TO meet the exacting demands of photographers specialising in Micro-Copying ILFORD LIMITED have introduced three special films of high resolving power and capable of giving negatives of strong contrast. These films are coated on non-inflammable base and are available in both the standard 35 mm. and 16 mm. perforations.

ILFORD Micro-Neg Film (*Panchromatic*)

has an exceedingly fine grain, yields a high contrast and is specially recommended for all first quality micro-copying.

ILFORD F.P. 2 Film (*Panchromatic*)

A fast film of fine grain which may be used in cases where short exposures are essential. Specially suitable for copying photographs and half-tone reproductions.

ILFORD Diapositive Film (*Non-colour Sensitive*)

intended for purely black-and-white subjects only and suitable for making positives from existing negatives.

Write for free booklet "The Technique of Micro-Copying."

REPORT OF THE INDIAN GOVERNMENT T COMMISSIONER, ALEXANDRIA, ON MARKETS WITH OPENINGS FOR INDIAN MODITIES, SEPTEMBER AND OCTOBER 19

IN view of the general improvement in the war situat chants in this area, particularly Egypt, are more active into the possibilities of trade with India despite the re and control imposed by the Governments of India and the concerned. Some of them are not only keen to carry on tions to transact business as soon as circumstances pe also to prepare the ground for the post-war period. W end in view a number of Indian firms have been approa is to be hoped that the response from Indian concerns wi disappointing.

There is a feeling, which certainly deserves fostering, th able contacts now established will be of a durable charact to now unfortunately most of the Indian manufactur exporters have not shown the same keenness to take adva the opportunities which circumstances have brought with grasp. There is a tendency among firms, particularly m turers, to show little interest in exploring overseas markets are content to sell in India, leaving importers or their a do the best they can to export the goods purchased.

The volume of Indian trade to the neighbouring coun the Near and Middle East has greatly increased. It w well at this stage to ponder over the steps which should be to find new openings as well as to retain a substantial p the trade now transacted when severe competetion will b be faced. It has not been possible to avoid a fair am speculative buying and selling. It is, however, desirable f prising and active Indian firms to establish direct conta reliable importers in this area. Some of the manufactur find it useful to set apart even a small percentage of their tions to cater for the overseas markets, concentrating lines in which there is scope for future business.

As noted in previous reports, some of the merchants ha their representatives to India to conduct business on the and look after their interests. Some of these have found to open branch offices in India. During the two month review many more concerns have referred to this office for tions during such visits. It is hoped that the information for them and the contacts established through them will useful for the mutual trade in the future.

Some of the more important articles for which enquiri received are noted below :—

Cotton piecegoods ; cotton yarns ; jute bags and cloth ; shellac ; shells (for manufacture of buttons) ; castor oil ; oil ; copra ; groundnuts ; leather ; hides and skins ; tea ; cereals ; musical instruments ; ivory goods (boxes, bracelets, brooches, necklaces, etc.) ; coffee ; pepper ; lead stationery requisites ; coconut coir ; harricot beans ; rattan waste ; sanitary wares ; building materials ; provisions and goods ; woollen piecegoods ; fishing equipment ; pipes and machinery ; varnishes and paints ; red lead, manila and ropes ; lethophone ; locks and padlocks ; wires ; firebricks etc. ; porcelainware ; iron and steel goods.

REPORT ON CONDITIONS IN THE ARGENTINE GRAIN TRADE DURING DECEMBER 1942.

[From a Buenos Aires Correspondent of the Imperial Economic Committee.]

(NOTE.—" Tons " throughout denotes " Metric Tons.")

THE commencement of the harvest found the fields of wheat in good shape, and those of linseed from fair to good on the whole in the zones of greatest production.

The report goes on to deal with the two principal crops in detail as follows :—

The Wheat Crop.—The work of harvesting is progressing normally throughout the country. Very high yields are being obtained in some parts of southern Santa Fé and northern Buenos Aires, where cutting has almost been finished; in the south of Buenos Aires harvesting is now being commenced with normal prospects. The quality of the grain is generally excellent, in some cases the weight of the wheat reaching 69¾ lbs. per bushel. On the other hand, in the south-west of Cordoba and of Buenos Aires and in the Pampa, the state of the fields is poor as a consequence of the drought and the green fly, considerable losses having taken place, which reach as high as 90 per cent of the seeded acreage. The few fields which will be harvested promise insignificant.

The Linseed Crop.—The condition of the linseed fields, owing to lack of opportune rains, must be said to be from fair to good. Cutting and threshing are proceeding in the provinces of Santa Fé and Entre Rios, in the east of Cordoba and North of Buenos Aires, with medium yields, varying from 9½ to 14¼ bushels per acre, of good quality.

In the south-west of Cordoba, south-west of Buenos Aires, and the Pampa territory, the condition of the linseed fields is poor and the losses of area considerable, as a result of the prolonged drought.

Wheat.

Exports of wheat in the month of December were 133,779 tons *plus* 6,451 tons of flour in terms of wheat, a total of 140,230 tons, which compares with a combined total of 188,284 tons during November.

Now as the crop year, coinciding with the calendar year closes, the statistical situation is as shown on the next page, the figures of shipments being subject to adjustment later as the definite official data become known.

Deduct for seed and domestic requirements	2,750,000	3,000,000
Surplus available for export .	8,273,850	6,331,513

The above figure compares with Ministry's official exportable surplus of 8,329,415 tons as at December 25th.

During the past year the principal buyer of Argentine wheat has been Brazil, which between wheat and flour has taken a little over 1 million tons; the United Kingdom, with 338,000 tons acquired only about a fourth part of her normal purchases; Europe, including Spain, took 534,000 tons; South American countries other than Brazil bought 133,000 tons and amongst various other countries 117,000 tons were distributed. The figures are approximate and subject to adjustment when the Aduana records are available.

If similar quantities are taken in 1943 by each of the purchasing countries, there will still remain approximately 6 million tons of wheat on hand at the close of the year, a dismal prospect which only a miraculous increase in shipping facilities could brighten.

The Government's official board has already commenced to purchase the wheat of the new crop at the minimum price of $6·75 per 100 kilos, the same as was paid last season, equivalent to 54¾c. US per bushel, reserving the right to require that growers who take advantage of the official intervention, reduce their plantings next season by 10 per cent.

There is some dissatisfaction in rural districts because higher prices are not being paid, in view of the increased costs of machinery, bags, transportation, and almost everything incidental to production. But the agitation has lost some of its point in those districts where extraordinary yields are being garnered and it may be presumed that producers will have a satisfactory income as their reward. The unanimity essential to a successful agitation is inclined to disappear, unfortunately for those farmers who really need more generous assistance.

There was little change in market conditions during the month. Brazil continues to be the principal foreign buyer. No purchases were made by Great Britain. Small parcels were acquired by Spain, Chile, and Peru.

Grain Board selling prices remain unchanged at $7·60 pesos per 100 kilos for wheat of the new crop in bulk at Buenos Aires, and $7·47½ at Rosario, with $1 peso less for grain of the old crop, and $1·50 more for bagged grain.

Linseed.

Shipments of linseed during December were 12,165 tons, ing the total for the year to 329,178 tons, and leaving t season to commence with stocks and surplus as shown be

B.—Linseed.

	1942. Tons.	1941. Tons.
Official estimate of the crop . .	1,600,000	1,459,600
Carry over from previous year .	653,267	57,959

Deduct for seed and domestic requirements	365,000	200,000
Exportable balance .	1,888,267	1,317,559
Shipments	329,178	718,672
Carry over into 1943/1942* . .	1,559,089	598,887
First official estimate . . .	1,600,000	1,700,000
Total Supplies .	3,159,089	2,298,887
Deduct for seed and domestic requirements	215,000	350,000
Surplus available for export . .	2,944,089	1,948,887

The deduction of 215,000 tons for seed and domestic co tion is the figure used officially. It may, however, prove much too low if the Government is able to carry out its ann intention of developing the use of linseed oil and residues Probably 400,000 or 500,000 tons may be disposed of in th depending largely upon the crushing capacity of the local and also upon the supplies of fuel oil obtainable from abro

Great Britain was the principal destination of Argentine last season, absorbing 158,000 tons; the United States took tons; 103,000 tons went to Europe; 7,000 tons to South A countries; and to various other destinations 6,000 tons.

Practically no business was transacted in linseed durin ember, the market being practically lifeless.

The new crop is being purchased by the Grain Board at mum price of $9·75 pesos per 100 kilos, the same price season, which is the equivalent of 70 *c.* US per bushel. The selling price remains unchanged at $15·50 per 100 kilos in

Outside the Board, seed can be obtained in the local stations at $9·40, of Superior quality, but for lack of buyers are few sales being made.

Milling Restrictions.

By a recent governmental decree, as from December 1st tine millers are prohibited from using wheat of the new Until the 30th of November 1943 they must use exclusively of the 1941-42 crop, which must be acquired from the Grain Board, and they may not mill wheat nor use wheat the crop of 1942-43, even if of their own production.

A price of $9 pesos per 100 kilos has been fixed for the which millers must pay for their purchases from the Grain or say $2·25 more than is paid by the Board to the pro This applies only to the domestic flour trade.

CROP FORECAST.

(*ALL-INDIA*)

THIRD WHEAT FORECAST, 1942-43.

(*Calcutta, April 22, 1943.*)

HIS forecast is based on reports received from provinces and s, which comprise 98 per cent of the total wheat acreage of ia. The returns, therefore, cover practically all the important eat-growing areas in India. The condition of the crop stated ow generally relates to that prevailing in the latter half of March.

The total area now reported is 34,092,000 acres, as against 556,000 acres (revised) at the corresponding time of last year, wing an increase of 2 per cent. The total yield is now estimated 10,952,000 tons, as compared with 9,919,000 tons, the corres- nding estimate (revised) of last year, or an increase of 10 per nt.

The present condition of the crop is reported to be good on the hole.

The detailed figures are as follows :—

The provincial reports are summarised below. The figures in ackets following the name of each province or State indicate the verage percentage of wheat area in that tract to the total area der wheat in India based on the figures for the five years ending 40-41.

Punjab (31·5 per cent).—The area is now reported to be 11,969,000 acres (1,718,000 acres being in the Indian States), as against 11,258,000 acres, the corresponding area of last year, or an increase of 6 per cent. The total yield is estimated at 4,573,000 tons (630,000 tons being in the Indian States), as against 4,313,000 tons at this time last year, or an increase of 6 per cent. Light to moderate but widespread rain fell in January and light rain was received in February. In March also, the rainfall was generally light to moderate. These rains proved beneficial to the standing crop. Strong winds have, however, affected the crop in parts of some districts. Light rust and smut attacks and damage by hailstorm are also reported from places. The yield is expected to be normal to above normal on irrigated and about normal on unirrigated areas.

United Provinces (23 per cent).—The area under wheat (both pure and mixed) amounts to 7,882,000 acres (149,000 acres being in the Rampur State), as against 7,912,000 acres at the corresponding time last year. The yield is estimated at 2,897,000 tons (45,000 tons being in the Rampur State), as compared with 2,725,000 tons, the corresponding revised estimate of last year. Except for light showers in most of the districts during the second week, the month of February was practically rainless. Some damage by hailstorms and frost is reported from a number of districts. Harvesting operations have commenced, and the outturn for the province as a whole, is estimated at 85 per cent of the normal, as compared with the past ten years' average of 78 per cent.

Central Provinces and Berar (9·4 per cent).—The area is now estimated at 2,688,000 acres (70,000 acres being in five Eastern Agency States), as against 2,960,000 acres at this time last year, or a decrease of 9 per cent. The yield is estimated at 546,000 tons (12,000 tons being in the Eastern Agency States), as against 409,000 tons, the corresponding estimate of last year which was a bad year. Lack of sufficient moisture in the soil and absence of winter showers till the last week of December stunted the growth of the crop during the early stage, particularly on lighter soils, which also showed signs of withering in places. But subsequent rain proved beneficial to the crop and it was expected that the outturn of the crop would be near about the normal over a fairly large tract. These expectations were not, however, fulfilled owing to the damage caused by hailstorm in parts of three districts and by rust attack in parts of eight districts. The average outturn for the province as a whole is at present estimated at 79·5 per cent of the normal, as compared with 53·6 per cent at the corresponding period of last year.

Bombay (6 per cent).—The area is now reported to be 1,658,000 acres (364,000 acres being in the Indian States), as against 1,938,000 acres the corresponding area of last year, or a decrease of 14 per cent, which is attributed to insufficient rains at sowing time. The yield is estimated at 307,000 tons (97,000 tons being in the Indian States), as against 334,000 tons at this time last year, or a decrease of 8 per cent. In Gujarat, the crop progressed fairly well on the whole and has been generally free from pest or disease. Harvesting of the unirrigated crop has almost been completed, while that of the irrigated variety is in progress. In the north Deccan also, the crop is in a fairly satisfactory condition and is being

harvested. In the south Deccan, the irrigated crop fared well generally, but the unirrigated crop has suffered in places from deficient soil-moisture and as a result, its outturn will be reduced. The crop is reported to have been slightly attacked by rust in parts of the Satara district. In the Karnatak, the crop has also been adversely affected by lack of adequate soil-moisture particularly in the Bijapur and Dharwar districts and as a result it is estimated to return very poor yields. Attack of rust is also reported from many parts of the division.

Sind (3·5 per cent).—The area sown is now estimated at 1,440,000 acres (112,000 acres being in the Khairpur State), as against 1,293,000 acres, the corresponding area of last year. The yield is estimated at 461,000 tons (40,000 tons being in the Khairpur State), as against 290,000 tons at this time last year.

Bihar (3·1 per cent).—The area sown is now estimated at 1,280,000 acres, as against 1,300,000 acres at the corresponding time last year. The yield is estimated at 576,000 tons, as compared with 485,000 tons, the corresponding estimate of last year. Weather conditions have been favourable and the average outturn of the crop for the province works out at 90 per cent of the normal, against the past ten years' average of 87 per cent. This means that this year's outturn is estimated at 103 per cent of the last ten years' average.

North-West Frontier Province (2·9 per cent).—The area is now reported to be 1,105,000 acres, as against 1,033,000 acres at the corresponding period of last year. The increase is attributed partly to adequate water-supply in the canals and opportune rains at sowing time and partly to "Grow more food" campaign and high price of the crop. The yield is now approximately estimated at 278,000 tons, as compared with 244,000 tons at this time last year. The outturn is at present expected to be 92 per cent of the normal, but this may have to be reduced owing to the recent appearance of locusts in Mardan, the largest wheat-producing district in the province.

Bengal (0·5 per cent).—The area sown amounts to 177,000 acres, as against 170,000 acres, the corresponding area of last year. The yield is estimated at 53,000 tons, as compared with 43,000 tons (revised) at this time last year. The weather has generally been fairly favourable, and the average outturn for the province works out at 91 per cent of the normal, as against 76 per cent at this time last year.

Delhi (0·1 per cent).—The area sown is estimated at 50,000 acres, as against 45,000 acres at the corresponding period last year. The yield is reported to be 12,000 tons, as compared with 11,000 tons at this time last year. The general condition of the irrigated crop is reported to be average, while that of the unirrigated variety is below average.

Ajmer-Merwara (0·1 per cent).—The area and yield are now estimated at 23,000 acres and 7,000 tons respectively, as against 14,000 acres and 4,000 tons at this time last year.

Orissa (0·01 per cent).—The area and yield are reported to be 4,000 acres and 1,000 tons, which are practically the same as at the corresponding time last year. The weather has been generally favourable; and the outturn for the province as a whole is estimated at 89 per cent of the normal, as against 92 per cent at this time last year.

Central India (6·1 per cent).—The total area is estimated at 2,058,000 acres, as against 1,950,000 acres (revised) at this time last year. The total yield is estimated at 369,000 tons, as compared with 282,000 tons, the corresponding revised estimate of last year. The detailed figures, according to the different follows:—

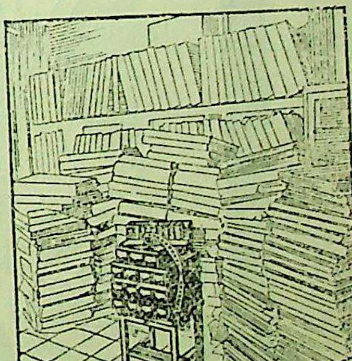
...but the records still remain

GOVERNMENT departments, industrial concerns, banks and many others are now using Kodak's Recordak and Graflex microfilming equipment to duplicate precious records for safe keeping away from enemy bombing.

What is microfilming? It is the photographic copying of records on miniature film—a new and startling development in the recording of documents of all kinds. Bulky files are duplicated in a few square inches, and the copying takes only a few minutes instead of weeks. One hundred feet of microfilm, for instance, will contain 2,350 letters, and it takes only one minute to copy twenty newspaper pages! Microfilming is doing an emergency job now, but eventually it will be a usual way of keeping records.



Twelve years of newspapers are shown here with their microfilm copies—145 cubic ft. reduced to 3½ cubic ft.

Microfilming equipment can be obtained only for essential purposes but full information can be had from

NTHLY REPORT OF THE INDIAN GOVERNMENT ADE COMMISSIONER, ALEXANDRIA, ON NEW ARKETS WITH OPENINGS FOR INDIAN COMMO- TIES, NOVEMBER 1942.

THOUGH the general outlook continued to be brighter and eling of uncertainty, particularly after the landing of allied in North and West Africa, abated a good deal, still the continued to be tense. The merchant community in Palestine and Iraq have seriously taken up the question ding their own representatives to India as it is considered heir presence would greatly facilitate and hasten the trans- s and shipment of goods.

ere is a feeling that manufacturers and even usual exporters, asier markets at home, are now more keen to dispose of oods in India, thus avoiding the present day trouble involved ertaking overseas trade. This is unfortunate as by so doing n India fail to establish or retain suitable contacts as well s a good opportunity to study markets abroad. During nth of November many local firms approached this office gard to the visit of their delegates to India. Letters of ction addressed to various chambers of commerce and ssociations were given and it is earnestly hoped that they eive all the assistance and encouragement they deserve.

ian manufacturers, with a few exceptions, have not found ible to provide this office with samples of their products. so far received have proved very useful and it is hoped that more would also arrange to supply samples of their wares. me of the more important articles mentioned in the en- s received in, this period are given below. The firms were informed of the restrictions now imposed in importing a er of Indian goods. Circumstances, in many cases, have lled them to look to India for their requirements. It would ll to establish suitable trade connections for the future when- ossible.

bacco; cotton piecegoods and yarns; jute bags and cloth; coffee; linseed oil; coconut oil; vegetable oils; copra pra oil; sugar; whisky; tamarind; cloves; cereals and spices; sesame; milk powder; hides; dry apricots; ds; pistachios; spring machinery; silk and cotton yarns.

NTHLY REPORT OF THE INDIA GOVERNMENT ADE COMMISSIONER, NEW YORK, ON NEW ARKETS WITH OPENINGS FOR INDIAN COM- ODITIES, NOVEMBER 1942.

s November 20th the War Production Board issued an amend- to General Imports Order M-63, effective November 23rd. r the new regulations coir fibre and coir yarn and coir manu- res were added to List 1 of that Order. Pig and hog bristles moved up to List 2 from List 1, while talc (steatite) was d to List 2.

n November 2nd the War Production Board issued a new , Conservation Order 221, restricting the use of burlap and n bags. Under this Order burlap bag manufacturers and bag rs are not permitted to deliver more than 50 per cent of the er of new bags sold or delivered by them during the year . In addition to this the use of new burlap was restricted to use in packing of the following commodities:—Barley, s and peas, chemicals (other than fertilizer), dairy products, ir, potatoes, rice, salt (rock), seeds, feeds and meal for animal mption, dried fruits, nuts, sponges, starch, sugar (raw), wheat, and wool products. It is indicated that a demand for cotton urgs has developed since the new Order became effective, as fertilizer, flour and refined sugar are commodities that may not be packed in burlap bags in the future. It is believed that the fertilizer industry will also turn to the use of multi-wall Kraft paper bags for packing their commodity. In normal times the fertilizer industry requires approximately 60,000,000 yards of burlap annually for packing purposes, the type of burlap mainly used in their manufacture being of 10 oz.—40″ construction.

The New York burlap market for the first time in many months showed signs of improvement with a resumption by burlap importers of purchases of burlap for future shipment from India. There were indications that the backlog position at the primary centre had considerably improved with the result that importers were reported to be prepared to make increasing purchases for future shipment. The disruption of cable facilities in India during the earlier part of the month had a very decided effect upon the local market as during that period very little activity was reported.

At mid-month there was an improvement in this situation, buying was resumed and it was reported that sales of burlap for future shipment had reached sizeable proportions. Later the local market developed signs of firmness as news was received that prices at their primary centre at Calcutta were climbing rapidly, while at the close of the month importers curtailed their buying when it was indicated that those prices had strengthened until they had almost reached the United States ceiling price levels.

Consumption of burlap in the United States, excluding the Pacific Coast, declined to a record low figure for the third time during recent months. Total consumption of burlap during November was 16,000,000 yards, a similar figure to that reached during July and August and compared with 30,000,000 yards during the previous month.

MARKET REPORT ON LINSEED AND LINSEED OIL.

Indian Market Report.

***Calcutta**, 17th May*—

Quotations for Linseed Oil—

Linseed oil, Calcutta Mills (Raw) . .	Rs. 35-0-0 per md. loose.
Linseed oil, Calcutta Mills (Boiled) . .	Rs. 37-0-0 per md. loose.

Summary of Market Conditions.—The linseed market has shown very little change during the week. A bullish tendency has been maintained throughout and actual business has been very restricted. Owing to steady levels prevailing up-country, local arrivals have shown no improvement and sellers have shown great reserve. Local mills have been keen buyers at the prevailing rates but only very small quantities have been procurable.

***Bombay**, 12th May*—

SUMMARY OF EARNINGS FOR THE MONTH OF APRIL 1943 AND WORKING EXPENSES FOR THE MONTH OF FEBRUARY 1943 OF CLASS I RAILWAYS—BUDGET LINES—

The total approximate gross earnings of all Class I Railways—Budget lines—for the month of April 1943 amounted to Rs. 14·16 crores *i.e.*, Rs. 2·02 lakhs *more* than the actuals for the corresponding month of the previous year and Rs. 3,64 lakhs *more* than the actuals for the corresponding month of 1941-42. Compared with the last year, coaching earnings increased by about 71 lakhs, goods earnings by about Rs. 1,19 lakhs and other earnings by about Rs. 12 lakhs during the month.

The increase under coaching earnings is mainly due to enhancement of fares, more military personnel, long distance passengers, marriage parties and festivals. Earnings from goods showed a general increase in all commodities except in the case of ore, rice and oil seeds. Cotton, kerosene oil, other food grains and coal showed an increase of 14, 15, 12 and 13 lakhs, respectively.

The total approximate gross earnings from 1st April to 30th April 1943 when compared with the actuals for the previous two years are given below, by Railways :—

INDIAN CUSTOMS AND CENTRAL EXCISE REVENUE.

—The total gross Indian Sea and Land Customs Revenue, excluding Salt Revenue, collected in British India during the month of April 1943, amounted to Rs. 2,96 lakhs, as compared with Rs. 2,69 lakhs in March 1943, and Rs. 3,04 lakhs in April 1942. The total gross central excise duties on motor spirit, kerosene, sugar, matches, etc., amounted to Rs. 95 lakhs in April 1943, as compared with Rs. 1,37 lakhs in March 1943, and Rs. 82 lakhs in April 1942. Comparing the figures for April 1943, with those for the corresponding month of the preceding year, there were decreases under import duties on kerosene oil, liquors, metals other than iron and steel, silver and block tin, motor vehicles, cotton fabrics, silk fabrics, artificial silk fabrics, silver bullion, coin, sheets, plates, etc., and iron and steel, under export duty on other agricultural produce, land customs receipts and excise duty on sugar. On the other hand, import duties on motor spirit, raw cotton and dyes derived from coal-tar and coal-tar derivatives, export duty on manufactured jute and the excise duties on motor spirit, matches, steel ingots and tyres showed increases.

CROP FORECAST.

(*ALL INDIA.*)

FINAL GENERAL MEMORANDUM ON THE COTTON CROP OF 1942-43.

(*Calcutta, April 30, 1943.*)

This memorandum, hitherto designated as the 'Supplementary Memorandum', will henceforth be known as the 'Final General Memorandum' on the crop. It deals with the final estimates of the cotton crop of the season 1942-43, especially of Bombay, Madras, Sind and Hyderabad.

Bombay.—The present report relates to estimates up to the 20th March, 1943. The total area under both early and late cotton is now reported to be 3,858,000 acres (1,267,000 acres being in the Indian States), which is 37 per cent below the area of last year. The decrease is general and is attributed chiefly to "Grow more food crops" campaign. The total yield is now estimated at 725,000 bales (231,000 bales being in the Indian States), as compared with 1,124,000 bales last year, or a decrease of 35 per cent. There is nothing new to add to what was reported in the last February forecast with regard to the crop in the Deccan (where the early variety is mostly cultivated and the picking of which was nearly completed at the time of issue of that forecast), except that the late crop in this division fared well and is expected to give fair yields. In Gujarat, the crop progressed well on the whole as a result of favourable weather conditions and is estimated to return fairly satisfactory yields. Pickings in this division are complete except in the Surat district and in parts of the Ahmedabad district, where they are in progress. In the Karnatak, the cotton season this year has been definitely unsatisfactory, especially in the east where the crop suffered very much from deficient rains since the beginning of the season. The crop matured early and its picking, which started by the end of January last, is almost over. The outturn of the crop in this division is expected to range between 42 and 50 per cent of the normal except in the Bijapur district, where the yield of the unirrigated variety is very poor being estimated at only 29 per cent of the normal.

Madras.—The area is now estimated at 2,172,000 acres, which is 15 per cent below the area of last year. The yield is reported to be below normal in all the districts except Salem, where it is expected to be normal. The seasonal factor for the province, as a whole, works out at 75 per cent of the average for both irrigated and unirrigated cotton together, as against 99 per cent last year. On the above basis, the total yield for the province is estimated at 406,000 bales, as compared with 564,000 bales last year, or a decrease of 28 per cent. It is, however, too early to estimate the yield with accuracy, as much will depend on future weather conditions and their effect on the second crop and on the amount of damage done by insect pests.

Sind.—The total area is now reported to be 758,000 acres (33,000 acres being in the Khairpur State), showing a decrease of 24 per cent as compared with last year. The total yield is now estimated at 414,000 bales (20,000 bales being in the Khairpur State), as compared with 434,000 bales last year, or a decrease of 5 per cent.

Hyderabad.—The total area is now estimated at 2,973,000 acres, which is 9 per cent below the area of last year. The decrease is chiefly attributed to "Grow more food crops" campaign. The yield is estimated at 488,000 bales, as compared with 540,000 bales last year. The average outturn for the State is now estimated at 82 per cent of the normal, the same as reported last year.

No material change is reported to have taken place in the character of the crop in the remaining provinces or States since the issue of the fourth forecast in February last except that, as a result of further examination of the crop position, the estimate of yield has been raised by 95,000 bales in the Punjab, by 23,000 bales in Baroda and by 1,000 bales in Central India; and lowered by 43,000 bales in the Central Provinces and Berar and by 1,000 bales in Gwalior.

Consequent on the revised figures noted above, the estimates in the table appended to the fourth forecast issued in February last require modification; and the revised totals for All-India for the year 1942-43, therefore, stand at 18,812,000 acres and 4,554,000 bales,* as compared with 24,151,000 acres and 6,127,000 bales last year.

Cotton in Foreign Countries.—From information available in this Department, it appears that the production of the 1942 cotton crop of the United States of America is estimated at 12,824,000 bales of 500 lbs each (equivalent to 16,030,000 bales of 400 lbs each), as compared with 10,744,000 bales of 500 lbs each (equivalent to 13,430,000 bales of 400 lbs each) in 1941. The area and production of the cotton crop in Egypt for the current season, *i.e.*, 1942-43, are placed at 730,000 acres and 930,000 bales of 400 lbs each, showing a decrease of 57 and 46 per cent, respectively, as compared with the preceding season. In the Anglo-Egyptian Sudan, the production of cotton during the season 1942-43 is estimated at 320,000 bales of 400 lbs each, which is 10 per cent above that of the preceding season. In Uganda, the production of the cotton crop of 1941-42 is estimated at 375,000 bales of 400 lbs each, as against 325,000 bales in 1940-41.

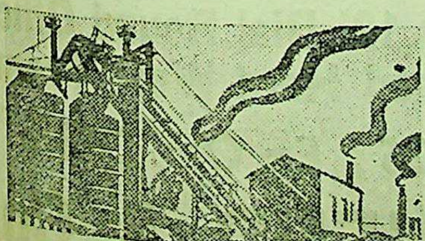
KNOWLEDGE GAINED SOME THOUSAND YEARS AGO-

paved the way to present-day achievements.

Some thousands of years ago, the Asuras, ancient enemies of the Gods, brought an end to the stone age in India with their discovery of metal. Historians connect this ancient tribe with the Agaria, who even unto this day are the iron smelters and blacksmiths of the Central Provinces. For centuries their simple ploughs and harrows have raised rich crops in the wild uplands of the Maikal Hills.



At this time when Indian industries are rapidly expanding in the development of which iron and steel play such a vital part, we pay homage to this ancient tribe, whose iron brought the law of plenty to the jungle—so long ago.

SULPHAPYRIDINE

INFRINGEMENT OF PATENT RIGHTS

It is desired by this notice to make it publicly known that Messrs. Lister Antiseptics & Dressings (1928) Ltd., manufacturers of PYRAMIN, admitted to be Sulphapyridine, have, as the result of action taken against them by the Patentees, Messrs. May & Baker Ltd. of Dagenham, Essex, England, given an undertaking that they will not hereafter manufacture or sell in British India the substance Sulphapyridine, that they admit the Patentees' monopoly rights and they have delivered up existing stocks of PYRAMIN. Without prejudice to their rights, the Patentees have disposed of such stocks, free of charge, to a medical institution.

WARNING

The Patentees, Messrs. May & Baker Ltd. will have no hesitation in taking legal proceedings against other infringers of their Indian Patents 25912, dated 21st November, 1938; 26671, dated 11th July, 1939; and 26672, dated 11th July, 1939, in respect of the manufacture of 2-sulphanilyl aminopyridine (Sulphapyridine) whether such infringers be manufacturers or distributors of this product.

STEEL FOR
STRENGTH

Since the conception of crude steel in the dark ages and during its steady growth through the years, progress in purity as well as in strength was and is of paramount importance.

To-day's modern methods of intensive selection produce perfect steel, strong and pure, to meet the most exigeant demands of India's growing industries.

SULPHAPYRIDINE

INFRINGEMENT OF PATENT RIGHTS

It is desired by this notice to make it publicly known that Messrs. Lister Antiseptics & Dressings (1928) Ltd., manufacturers of PYRAMIN, admitted to be Sulphapyridine, have, as the result of action taken against them by the Patentees, Messrs. May & Baker Ltd. of Dagenham, Essex, England, given an undertaking that they will not hereafter manufacture or sell in British India the substance Sulphapyridine, that they admit the Patentees' monopoly rights and they have delivered up existing stocks of PYRAMIN. Without prejudice to their rights, the Patentees have disposed of such stocks, free of charge, to a medical institution.

WARNING

The Patentees, Messrs. May & Baker Ltd. will have no hesitation in taking legal proceedings against other infringers of their Indian Patents 25912, dated 21st November, 1938; 26671, dated 11th July, 1939; and 26672, dated 11th July, 1939, in respect of the manufacture of 2-sulphanilyl aminopyridine (Sulphapyridine) whether such infringers be manufacturers or distributors of this product.

This advertisement is issued on behalf of the proprietors by

CEYLON.

PIECEGOODS FROM INDIA.

With further reference to the notice on the above subject published in the *Indian Trade Journal* of the 4th June 1942 (pages 509-510), it is announced for general information that the Principal Collector of Customs, Colombo, has also recognised the Melapalaiyam Branch of the Muslim Chamber of Commerce as suitable for authenticating invoices for piecegoods exported to Ceylon. The name of this Branch of the Chamber should accordingly be included in the List of Chambers appended to the notice referred to above.

EGYPT.

CUSTOMS DUTIES INCREASED.

The following is reproduced from the *Board of Trade Journal* dated the 13th February 1943 :—

With reference to previous notices under the above heading in the " Board of Trade Journal ", H.M. Ambassador at C has reported by telegraph that by a Decree of 30th January increase in Customs duties on all goods paying *specific* duties which was raised to 75 per cent by a Decree of 18th August has now been raised to 100 per cent, with the following tions : pomegranates, tea, wheat, flour, tobacco, cigarettes, cigars, benzene and white spirit and cotton yarns.

The Customs surtax levied on all imports into Egypt has increased from 3 per cent *ad valorem* to 4 per cent *ad valorem* and import duties on tobacco, cigarettes and cigars have been raised by 100 milliemes per kilogramme.

H.M. Ambassador also reports that substantial increases have been made in rates of Excise duty on benzene, coffee, pure alcohol and beer, details of which will be published when they are received.

IRAQ.

COMMERCIAL IMPORTS BY PARCEL POST.

The following is reproduced from the *Board of Trade Journal* dated the 20th February 1943 :—

H.M. Ambassador, Baghdad, has reported by telegraph that present Iraqi regulations require all commercial imports by parcel post exceeding one dinar in value to be covered by the prior issue of an import licence. Hitherto such licences have been issued on the arrival of the goods in the case of imports from the sterling area.

Non-commercial and trivial post parcels not exceeding one pound (£1) in value, will continue to be admitted without a prior import licence.

Licences will be issued for any goods already in transit by parcel post under the old regulations.

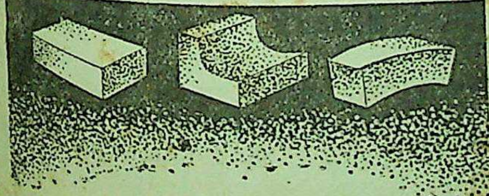
REFRACTORIES



Burn's Refractories Works have been in operation for over 80 years throughout which period they have continued to make a close and extensive study of the economics of insulation and have accumulated an experience in the manufacture of refractory materials, unsurpassed in India.

Burn's production ranges from the common firebrick to silica, magnesite, chrome, high alumina, cupola and insulating brick, with fireclay, silica and fire cements suitable for all types of furnaces.

Manufactured in India with Indian labour and capital Burn's refractory materials ensure greater fuel savings obtained by the efficient insulation of any heated plant.

SULPHAPYRIDINE

INFRINGEMENT OF PATENT RIGHTS

It is desired by this notice to make it publicly known that Messrs. Lister Antiseptics & Dressings (1928) Ltd., manufacturers of PYRAMIN, admitted to be Sulphapyridine, have, as the result of action taken against them by the Patentees, Messrs. May & Baker Ltd. of Dagenham, Essex, England, given an undertaking that they will not hereafter manufacture or sell in British India the substance Sulphapyridine, that they admit the Patentees' monopoly rights and they have delivered up existing stocks of PYRAMIN. Without prejudice to their rights, the Patentees have disposed of such stocks, free of charge, to a medical institution.

WARNING

The Patentees, Messrs. May & Baker Ltd. will have no hesitation in taking legal proceedings against other infringers of their Indian Patents 25912, dated 21st November, 1938; 26671, dated 11th July, 1939; and 26672, dated 11th July, 1939, in respect of the manufacture of 2-sulphanilyl aminopyridine (Sulphapyridine) whether such infringers be manufacturers or distributors of this product.

SUGAR PRODUCTION FORECAST.

(*ALL-INDIA*)

SECOND MEMORANDUM ON THE PRODUCTION OF SUGAR DIRECTLY FROM CANE IN MODERN FACTORIES IN INDIA DURING THE SEASON 1942-43

By

R. C. SRIVASTAVA, B.Sc., O.B.E.,

Director, Imperial Institute of Sugar Technology, India, Cawnpore.

I.—Introduction.

E production of white sugar directly from cane in India, in on 1942-43 is estimated to be 10·8 lakhs tons, against 7·8 lakhs in 1941-42. The higher production in the current season is ly due to bigger output in the United Provinces and Bihar. provincial governments of the United Provinces and Bihar, not removed all restrictions on the crushing of cane by factories, encouraged factories to crush cane to the limit of their capa-. But, owing to the generally poor crop and the heavy and of cane for the manufacture of *gur*, the price of which ined high throughout the season, the industry was handicapl by shortage of raw material. The crushing season was, there-, short in both the provinces, and it has been estimated that average number of days actually worked by factories, would exceed 115 for the United Provinces and 100 for Bihar. Neverless, factories in these provinces were able to produce 8·4 lakhs s of sugar.

Cane shortage was even more acute in the remaining provinces l the Indian States. The average number of days worked by tories outside the United Provinces and Bihar has been estited not to exceed 80. The production is estimated to be lower than in 1941-42, in all these provinces, with the exception of Madras, where the previous seasons' production has been maintained.

II.—Number of Factories Working.

A hundred and fifty cane factories are estimated to have worked in the season 1942-43. The same number of factories actually worked in 1941-42.

Table I shows the distribution of factories according to provinces during the seasons 1942-43 and 1941-42.

REPORT ON CONDITIONS IN THE ARGENTINE GRAIN TRADE DURING NOVEMBER 1942.

[From a Buenos Aires Correspondent of the Imperial Economic Committee under date of 2nd December 1942.]

(NOTE.—" Tons " throughout denotes " Metric Tons.")

Crop Conditions.

THE condition of the wheat and linseed crops may be said to be generally good, taking the country as a whole.

The Wheat Crop.—The probable production of the wheat crop may be considered good, although the fields in some regions are only fair, and in others distinctly poor, with some important areas definitely lost. The prospects of a good yield are due to the fact that in regions where crops are normally better very good results are now being obtained in the harvest, which will balance the losses experienced in other zones.

In the south-west of Cordoba and of Buenos Aires and in the Pampa territory the state of the fields is bad because of the drought and green fly, losses reaching in some zones 90 per cent of the seeded area. On the other hand, the wheat in Santa Fé, Entre Rios and the east of Cordoba, is from good to very good, harvesting having commenced with yields of from 16 bushels to 44 bushels per acre of heavy wheat.

The Linseed Crop.—The condition of the linseed fields is generally good, although they have been affected by the drought prevailing during November. The recent rains benefited the crops in the north of Buenos Aires, which on the other hand suffered damage from *isoca grub*. In Entre Rios, Santa Fé and eastern Cordoba the linseed continues to be in good condition. But in the south-west of Cordoba, south-western Buenos Aires and the Pampa territory there are fields in poor condition as a consequence of the prolonged drought.

The sanitary condition of the crop is very good. Only in some fields in the province of Cordoba there have been noticed isolated attacks of " pasmo " (*septoria linicola*).

SUPPLIES AND MARKETS.

Wheat.

November exports were a little higher than those of the preceding month. 188,284 tons moved out (172,677 tons of wheat and 15,607 tons of flour in terms of wheat). The October combined total was 170,626 tons.

The statistical situation is now as shown below :—

B. 2040 WS. 27-8-43.

In view of the not too favourable conditions described in the official crop report, on the preceding page it is now generally conceded that previous expectations as to the volume of the wheat crop will not be likely to be realised, and estimates for guesses are now in the neighbourhood of 5 million tons. The first official figures are expected to be compiled towards the middle of this current month.

There was very little activity in the wheat market during November. For lack of demand, business with Europe was quite stagnant. Export sales on a small scale were made almost daily by the Wheat Board to neighbouring South American Countries, Brazil being the principal buyer. The Board has not modified its selling price, Argentine wheat being already value for value, the cheapest obtainable.

Recent weeks have seen considerable agitation amongst the producers, anxious to obtain a higher official purchasing price for their wheat in view of the increased expenses to which they are put for essential supplies such as bags and repairs for equipment, in addition to higher living costs. It has already been officially indicated that the Government intended to purchase the wheat and linseed crops. Doubts were set at rest this morning by publication of a Decree setting the basic price for the buying of wheat at the same figure as last year, *viz.*, $ 6·75 pesos per 100 kilos, equal to 54¾c. U. S. per bushel.

Sales to the official Grain Board will carry the obligation to reduce acreage by 10 per cent next season, if required to do so.

Linseed.

November shipments of linseed totalled 17,255 tons as compared with 6,421 tons in the preceding month. The following statement shows the current statistical position :—

	1941-42. Tons.	1940-41. Tons.
Third official estimate of the crop	1,600,000	1,459,600
Carry over from previous year	653,267	57,959
Total Supplies .	2,253,267	1,517,559
Deduct for seed and domestic requirements . . .	365,000 (revised)	200,000
Exportable balance .	1,888,267	1,317,559
Exported to the end of November	317,013	634,907
Still available for export . .	1,571,254	682,652

So far as is known no export business has been done with the Grain Board. For lack of demand sales are impossible. Even a modest reduction in the official selling price failed to attract buyers.

In the open market the tone is weak and buyers are scarce, but occasional sales are made in the local stations of Superior quality seed on a 2 per cent basis at $ 9·40 pesos per 100 kilos.

As had been anticipated in the grain trade, the Government by a recent Decree established as a basic price for the new crop of linseed $ 9·25 per 100 kilos, which is the same as was paid last season. It is equivalent to 70 cents U. S. per bushel.

On the basis of this price paid down in the port of Buenos Aires, the Grain Board will purchase any linseed of the new crop which may be offered to it by growers, with the proviso that these will, if required to do so, reduce their acreage next season by 10 per cent.

Early estimates of the new crop indicate a yield of about 1½ million tons, with a quality about average. Prospects for the marketing of such a volume are far from optimistic.

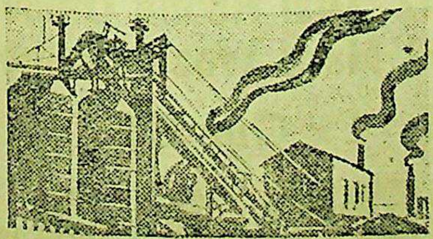
KNOWLEDGE GAINED SOME THOUSAND YEARS AGO-

paved the way to present-day achievements.

Some thousands of years ago, the Asuras, ancient enemies of the Gods, brought an end to the stone age in India with their discovery of metal. Historians connect this ancient tribe with the Agaria, who even unto this day are the iron smelters and blacksmiths of the Central Provinces. For centuries their simple ploughs and harrows have raised rich crops in the wild uplands of the Maikal Hills.



At this time when Indian industries are rapidly expanding in the development of which iron and steel play such a vital part, we pay homage to this ancient tribe, whose iron brought the law of plenty to the jungle—so long ago.

[From a Buenos Aires Correspondent of the Imperial Economic Committee under date of 11th March 1943.]

(NOTE.—"Tons" throughout denotes "Metric Tons.")

CROP CONDITIONS.

The Wheat Crop.—Cutting and threshing of wheat has terminated throughout the country, with the heavy yields and good quality foreseen in previous reports.

Linseed.—Cutting and threshing of linseed also have been finished. Generally the yields obtained were low, as a consequence of the drought and attacks of *isoca grubs*.

SUPPLIES AND MARKETS.

Wheat.

	1942-43. Tons.	1941-42. Tons.
Second official estimate of the crop .	6,400,000	6,200,000
Carry over from previous year . .	4,351,166	3,259,516
Total Supplies .	10,751,166	9,459,516
Deduct for seed and domestic requirements	2,750,000	3,000,000
Exportable balance .	8,001,166	6,459,516
Exported to the end of February .	271,021	317,387
Still available for export . . .	7,730,145	6,142,129

The above shows the statistical situation as the month of March opened, and the balance available for exportation is substantially in line with figures published by the Ministry of Agriculture, although it is much higher than the views of some members of the grain trade.

Shipments during February were rather higher than those of January. Wheat in grain totalled 149,248 tons, to which must be added 1,673 tons of flour in terms of wheat, adding up to 150,921 tons, which compares with 120,100 tons in the preceding month.

There is no change to report in the market conditions. Brazil is still the principal purchaser of Argentine wheat, with Spain running second. The United Kingdom, with a good crop of her own, is showing no interest in foreign wheat other than that available in Canada, with a geographical advantage over the River Plate, but less advantage than usual in the matter of quality, this season's Argentine wheat being of very high grade.

Inferior wheat of previous crops, still in the hands of the Grain Board has been made available for sale locally to stockmen in the drought stricken areas where feed grain is needed. The price fixed is that paid to producers for the grain a year ago, *viz.*, $6·75 per 100 kilos, or say 54¾c. US per bushel.

CONDENSING PLANT.
WORTHINGTON-SIMPSON LTD.
10, CLIVE STREET, CALCUTTA.

The Board is open to purchase new crop wheat at the same price, there is no great rush by the farmers to sell. Except where ds have been high, the producers say they are left with a loss, their dissatisfaction is increased by the knowledge that Canafarmers receive 50 per cent more for their wheat, and wheat the United States is worth about $17 pesos as compared with 5 in the Argentine.

The grain Board's selling price for wheat of the new crop is 0 pesos per 100 kilos, in bulk, in the port of Buenos Aires.

There is much talk of shipping Argentine wheat to India in entine ships, which would bring back bags or bag material for dling the next crop.

Linseed.

0,700 tons of linseed were shipped out in February, a substantial ance over the January shipments of 13,755 tons, but making impression on the heavy stocks as shown in the following ement :—

	1942-43. Tons.	1941-42. Tons.
nd official estimate of the crop .	1,560,000	1,670,000
y over from previous year . .	1,543,786	653,267 (revised)
Total Supplies .	3,103,786	2,323,267
ction for seed and domestic requirements	215,000	350,000
Exportable balance .	2,888,786	1,973,267
orted to the end of February .	64,455	82,445
l available for export . . .	2,824,331	1,890,822

Official figures show about 150,000 tons more than the above; e grain trade figures about 225,000 tons less.

More activity was observed in the linseed market during the nth than for some little time previously, and various cargoes e reported as sold by the Grain Board for shipment to Europe ing the next six months at a price of $15·50 per 100 kilos in k.

Following this the Board marked up its selling price to $18 os in bulk, instigated not so much by the evidently brisker dend as by the reluctance of the growers to sell their seed to the rd at the official minimum price of $9·25 pesos per 100 kilos.

Considerable sales of old crop seed are reported to have been de by the Board for fuel purposes at $40·30 pesos per ton, owing which the selling price was raised by nearly one third, d the loss which is being made on this old seed was correspondly reduced.

Farmers selling to the trade in the open market are able to tain for good quality seed $9·70 in the local railway stations, king on these sales an additional gain of the amount of the ight to the ports where delivery to the official Board has to be de.

CROP FORECAST.

(*ALL-INDIA*.)

FOURTH WHEAT FORECAST, 1942-43.

(*Calcutta, May 31, 1943.*)

THIS forecast is based on reports received from provinces and States, which comprise 98 per cent of the total wheat acreage of India. The returns, therefore, cover practically all the important wheat-growing areas in India. The condition of the crop stated below generally relates to that prevailing up to the beginning of May.

The total area is now returned at 34,057,000 acres, as compared with 33,914,000 acres (revised) at this time last year. The total yield is now estimated at 10,938,000 tons, as against 9,990,000 tons (revised) at the corresponding time of last year, or an increase of 9 per cent.

The present condition of the crop is reported to be good on the whole.

The detailed figures for the provinces and States are shown below (the figures for the previous years are given in the appended statement).

The provincial reports are summarised below. The figures brackets following the name of each province or State indicate average percentage of wheat area in that tract to the total under wheat in India based on the figures for the five years end 1940-41.

Punjab (31·5 per cent).—The area is estimated at 12,021 acres (1,737,000 acres being in the Indian States), as agai 11,499,000 acres at the corresponding time last year. The yi is now estimated at 4,705,000 tons (649,000 tons being in Indian States), as compared with 4,350,000 tons, the correspondi estimate of last year. Climatic conditions at sowing time were, the whole, favourable. Light to moderate but widespread rain in January and light rain was received in February. In Ma also, the rainfall was generally light to moderate. These ra proved beneficial to the standing crop. The supply of canal wa was also sufficient for the maturing of the crop. Strong wi during March and the beginning of April, however, caused lodg in a few districts. Mild rust and smut attacks and damage hailstorm are also reported from parts of some districts. season was, on the whole, favourable, and the yield is normal above normal on irrigated and about normal on unirrigated, ar

United Provinces (23 per cent).—The area under wh (both pure and mixed) amounts to 7,722,000 acres (149,000 ac being in the Rampur State), as against 7,999,000 acres, the revi area of last year. The yield is estimated at 2,742,000 tons (45, tons being in the Rampur State), as compared with 2,608,000 t (revised) last year. Except for some light showers in a few distri the first three weeks of March were practically rainless. Du the fourth week of the month, however, light showers were ceived in many districts, mostly western, while there was gen rain in April except in the first week which was rainless. S damage to the crop by strong winds, rain and hail is reported f a few districts. The outturn for the province, as a whole, is e mated at 83 per cent of the normal, as compared with the past years' average of 78 per cent.

Central Provinces and Berar (9·4 per cent).—The area estimated at 2,636,000 acres (71,000 acres being in five Easte Agency States), as against 2,925,000 acres, the revised area last year. The yield is estimated at 524,000 tons (11,000 tons be in the Eastern Agency States), as compared with 402,000 tons, revised yield of last year, which was a bad year. As reported the third forecast issued in April last, the rainfall after Decem proved beneficial to the crop and it was expected that the o turn of the crop would be near about the normal over a fa large tract. The expectation has not, however, been fulfilled ow to the damage caused by hailstorm and rust in a number of d tricts. Threshing and winnowing operations are nearing complet The provincial outturn now works out at 78·9 per cent of the norm as against 54 per cent last year.

Bombay (6 per cent).—The area is now estimated at 1,664, acres (364,000 acres being in the Indian States), as against 1,929, acres (revised) last year, or a decrease of 14 per cent, which attributed to insufficient rains at sowing time. The yield is e mated at 320,000 tons (105,000 tons being in the Indian Sta

INDIAN CUSTOMS AND CENTRAL EXCISE REVENUES.

—The total gross Indian Sea and Land Customs Revenue, excluding Salt Revenue, collected in British India during the month of May, 1943, amounted to Rs. 3,00 lakhs as compared with Rs. 2,97 lakhs in April, 1943, and Rs. 2,68 lakhs in May, 1942. The total gross central excise duties on motor spirit, kerosene, sugar, matches, etc., amounted to Rs. 1,16 lakhs in May, 1943, as compared with Rs. 1,40 lakhs in April, 1943, and Rs. 1,03 lakhs in May, 1942. The grand total of gross Customs and Central Excise Revenues realised in the two months ended May, 1943, was Rs. 8,52 lakhs as compared with Rs. 7,65 lakhs during the same period of the preceding year. Of this amount, import duties accounted for Rs. 5,33 lakhs, export duties for Rs. 47 lakhs, land customs and miscellaneous for Rs. 16 lakhs and central excise duties for Rs. 2,56 lakhs. Comparing the figures for April and May, 1943, with those for the corresponding period of the preceding year, there were decreases under import duties on kerosene oil, liquors, motor vehicles, metals other than iron and steel, silver and block tin, artificial silk fabrics, iron and steel, cotton fabrics, electric lighting bulbs, silver bullion, coin, sheets, plates, etc., silk fabrics and batching, fuel and lubricating oils, under export duties on rice and other agricultural produce, land customs receipts and under excise duties on sugar and kerosene. On the other hand, import duties on motor spirit, raw cotton, spices, cinematograph films and betelnuts, export duty on manufactured jute and the excise duties on matches, motor spirit and tyres showed increases.

STEEL FOR
STRENGTH

Since the conception of crude steel in the dark ages and during its steady growth through the years, progress in purity as well as in strength was and is of paramount importance.

To-day's modern methods of intensive selection produce perfect steel, strong and pure, to meet the most exigeant demands of India's growing industries.

INTERNATIONAL TRADE FAIR, SMYRNA, 20TH AUGUST TO 20TH SEPTEMBER 1943.

—The Government of India have decided to participate in the above Fair which will be held at Smyrna between the 20th August and the 20th September 1943. The exhibits will be transported to Smyrna and back at Government expense. Export Trade Controllers are being instructed by Government to permit shipment of exhibits. Railway priorities are also being arranged. As the time now left is very short, firms intending to participate in this Fair should send their exhibits direct to Bombay to the care of Messrs. Thomas Cook & Sons, Ltd., by the end of the first week of July at latest. The exhibits should be well packed, superscribed "Samples for the international Fair, Smyrna" and supported by invoices in triplicate. Each sample should be well labelled and prices noted thereon.

The following is a summary of the provincial reports in respect of each crop. The figures in brackets following the name of each province and State indicate the average percentage of the area under rape and mustard or linseed (as the case may be) in that tract to the total area under that crop in India based on the figures for the five years ending 1940-41.

I.—Rape and Mustard

United Provinces (44·4 per cent).—The area sown with the *unmixed* crop is reported to be 190,000 acres, as against 281,000 acres last year. The decrease is attributed partly to lack of soil-moisture at sowing time and partly to increased cultivation of food grains as a result of "Grow more food crops" campaign.

(*a*) Including Indian States. (*b*) 100 tons. (*c*) 500 tons.
*Madras, Ajmer-Merwara, Mysore, Gwalior, Kashmir, Madras States, Central States, Punjab States, United Provinces States and certain other Rajputana tes.

The yield of the *unmixed* crop is estimated at 37,000 tons, as against 53,000 tons last year. The area and yield of rapeseed grown *mixed* with other crops, as borders and lines, are roughly estimated at 2,440,000 acres and 481,000 tons, as against 2,816,000 acres and 533,000 tons last year. The crop is reported to have suffered from rain, hail, wind and insects to some extent, and the average outturn for the province as a whole, is estimated at 82 per cent of the normal, as against the past ten years' average of 74 per cent.

Punjab (15·6 per cent).—The information is not complete and the figures are, therefore, not final. The area is now estimated at 892,000 acres, as against 1,023,000 acres last year, or a decrease of 13 per cent. The yield is estimated at 146,000 tons, as against 157,000 tons last year. The season was generally favourable for sowings, and winter rains were generally sufficient for the maturing of the crops. The yield is generally normal on irrigated, and below normal to normal on unirrigated, areas.

Bengal (12·4 per cent).—The area sown is stimated at 885,000 acres, as against 741,000 acres last year. The yield is estimated at 163,000 tons, as against 137,000 tons last year. Since the issue of the second forecast in March last, the weather has been generally favourable. Some damage to the crops by insects has, however, been reported from a few districts. The average outturn for the province is now estimated at 76 per cent of the normal, which is the same as was reported last year.

Bihar (8·3 per cent).—The area sown is reported to be 474,000 acres, as compared with 486,000 acres last year. The yield is estimated at 101,000 tons, as against 104,000 tons last year. The weather and the general condition of the crops are, on the whole reported to be fair.

Assam (6·5 per cent).—The area sown is 384,000 acres, as compared with 376,000 acres last year. The season has not been favourable on account of drought. Insects have also caused considerable damage to the crops in places. The average outturn for the province is estimated at 63 per cent of the normal, as against 75 per cent last year: and on this basis, the total yield is estimated at 48,000 tons, as against 56,000 tons last year.

Sind (3 per cent).—The area sown with rapeseed is estimated at 280,000 acres (21,000 acres being in the Khairpur State), as against 177,000 acres last year. The yield is estimated at 38,000 tons (3,000 tons being in the Khairpur State), as against 13,000 tons last year. The crop is reported to have been slightly damaged by locusts and insects in places.

North-West Frontier Province (1·7 per cent).—The area sown is estimated at 103,000 acres, as against 116,000 acres last year, or a decrease of 11 per cent. The decrease is attributed partly to lack of rain at sowing time and partly to "Grow more food crops" campaign. The total outturn is estimated at 10,000 tons, as against 11,000 tons last year.

Central Provinces and Berar (1·1 per cent).—The area i estimated at 52,000 acres, as against 61,000 acres last year The yield is estimated at 7,000 tons, as against 8,000 tons las year. The crop was damaged to a varying extent owing to lack of soil-moisture, frost, and absence of winter showers. For th province as a whole, the outturn is estimated at 58·3 per cent o the normal, as against 55·1 per cent last year.

Orissa (0·4 per cent).—The area sown is reported to be 26,00 acres, as against 29,000 acres last year. The yield is estimat at 5,000 tons, as against 6,000 tons last year. Weather condition have not, on the whole, been favourable. The average outtur for the province is estimated at 73 per cent of the normal, as agains 77 per cent last year.

Bombay (0·4 per cent).—The area sown is estimated at 11,00 acres (3,000 acres being in the Indian States), as against 15,00 acres last year. The decrease is general and is due partly to deficient rains at sowing time and partly to "Grow more food crops" campaign. The yield is estimated at 2,000 tons (400 tons onl being in the Indian States), which is practically the same as i last year. The crops are reported to have fared well on the whole

Delhi (0·1 per cent).—The area sown is estimated at 3,00 acres, as against 5,000 acres last year. The yield is estimated a 100 tons, as against 200 tons last year. The general conditio of the irrigated crop is reported to be good, while that of th unirrigated variety is below normal.

Alwar (1 per cent).—The area under rapeseed is reporte to be 32,000 acres, as against 60,000 acres last year. The yield i estimated at 4,000 tons, as against 8,000 tons last year.

Baroda (0·3 per cent).—The area under rapeseed is reporte to be 7,000 acres, as against 8,000 acres last year. The yield i estimated at 1,000 tons, which is practically the same as in las year.

Hyderabad (0·2 per cent).—The area sown is estimated a 5,000 acres, as against 10,000 acres last year. The yield is estimated at 500 tons, which is practically the same as in last year.

II.—Linseed

Central Provinces and Berar (33·8 per cent).—The area sown is estimated at 1,121,000 acres (including 83,000 acres in four Eastern Agency States), as against 1,059,000 acres last year. The yield is estimated at 79,000 tons (including 4,000 tons for Eastern Agency States), as against 60,000 tons last year. As reported in the second forecast issued in March last, the crop suffered from prolonged drought, untimely rain and hail in places. Since then, the weather has been warm with periodical light showers in places. For the province as a whole, the average outturn now works out at 72·7 per cent of the normal, as against 55·5 per cent last year.

The average for the province is estimated at 85 per cent of the normal, nst 80 per cent last year. The season was as described nder "Rape and Mustard".

bay (3·1 per cent).—The area sown is estimated at 53,000 2,000 acres being in the Indian States), as compared with acres last year. The decrease is general and is attributed to deficient rains at sowing time and partly to "Grow ood crops" campaign. The yield is estimated at 4,000 00 tons only being in the Indian States), as against 10,000 st year. In the Deccan, the crop fared well on the whole north, but in the south it suffered from inadequate soil-moisture. In the Karnatak also, the crop suffered considerably from absence or deficiency of rain throughout the season, especially in the east, and a very low outturn is expected.

Punjab (0·8 per cent).—The area sown is estimated at 35,000 acres, as against 32,000 acres last year. The yield is estimated at 3,000 tons, which is practically the same as in last year. The season was as described above under "Rape and Mustard".

Orissa (0·2 per cent).—The area sown is estimated at 6,000 acres, as against 9,000 acres last year. The yield is estimated at 1,000 tons, which is practically the same as in last year. The average outturn for the province is estimated at 76 per cent of the normal, as against 90 per cent last year. The season was as described above under "Rape and Mustard".

Hyderabad (12·5 per cent).—The area sown is estimated at 484,000 acres, as against 471,000 acres last year. The yield is estimated at 46,000 tons, as against 35,000 tons last year. The average outturn for the State is estimated at 71 per cent of the normal, as compared with 59 per cent last year.

Kotah (2·3 per cent).—The area sown is estimated at 93,000 acres, as against 77,000 acres last year. The yield is estimated at 9,000 tons, as against 5,000 tons last year.

Bhopal (1·5 per cent).—The area sown is estimated at 34,000 acres, as against 52,000 acres last year. The yield is estimated at 3,000 tons, as against 4,000 tons last year. The crop was adversely affected by drought in the months of November and December but the rainfall in the last week of December and in January proved very beneficial to it. Hailstorms and frost, however, caused damage to the crop subsequently.

Chart.—The following two charts illustrate the variations in the area and yield of each crop for the last ten years.
